

Gabriel Moreira Magalhães

Product Designer

EXPERIENCE

UI/UX Designer — Gabriel Tech Design

Remote / Nov 2020 — Current

Here at GTD, I specialize in creating efficient, custom digital UI/UX Design and Low-Code Dev solutions to help drive business success.

Product Designer — BRB Seguros

Remote / May 2023 — Oct 2023

I have the privilege of playing an essential role in two highly relevant teams, BRB Digital and BRB Completo. This experience has provided me with a unique opportunity to enhance my skills and knowledge in two distinct and simultaneous scenarios.

UX/UI Analyst — Bradesco Seguros

Remote / Apr 2022 — Oct 2022

During my time as a UX/UI Design Analyst for the mobile application, I faced significant challenges that demanded a lot of dedication and skill. One of these challenges was developing the Income Statement flow for life insurance, which was a complex and critical task for the success of the main application of the health plan operator. In this project, I had to apply my expertise in interaction design and usability to create an intuitive and enjoyable user experience.

UI/UX Designer — AKM Performma

Remote / June 2021 — Feb 2022

Led research, web prototyping and page development for launches of large info products that generated multi-digit revenue through the internet.

UX/UI Designer — Freelancer

Remote / Mar 2017 — Oct 2020

I was responsible for delivering a complete and intuitive user experience, from research to final delivery.

EDUCATION

ChatGPT Complete Guide: Learn Midjourney and ChatGPT 4

Nov 2023 – Dec 2023

UX, UI and Product Design - UX Unicórnio

Feb 2021 – Feb 2022

Analysis and systems development - UMESP

Feb 2018 – June 2020

I.T. - Senac

Mar 2017 – Oct 2018

PERSONAL PROJECT

Digital Creator on Instagram

Sept 2023 – Current

I embarked on the challenge of sharing tips and insights about the realms of AI and UX/UI design. However, my major undertaking was stepping out of my comfort zone to create content entirely in English, aiming to reach a global audience. For Brazilian viewers, I provided subtitles in my native language, ensuring an authentic connection with the local audience
