

## Resume

### Professional Summary:

Dedicated and detail-oriented individual with a background in graphic and web design, now specializing in cybersecurity and penetration testing. Currently a student at Sberbank's "School 21" programming school, where I am honing my programming and cybersecurity skills through hands-on projects. Passionate about ethical hacking and information security, continuously advancing my knowledge through platforms like Hack The Box (HTB).

### Key Skills:

- **Programming Languages:** Proficient in C, C++, and Python, with strong understanding of syntax and features.
- **Web Development:** Experience with Python and the Django framework, enabling secure web application development.
- **Scripting:** Skilled in writing Bash scripts for automating tasks and enhancing productivity in penetration testing.
- **System Administration:** Advanced experience with Linux OS, including command-line utilities and administrative tasks.
- **Version Control:** Proficient in Git, with experience using Gitlab and Github in collaborative environments.

### Technical Skills:

Penetration Testing, Vulnerability Assessment, Network Security, SQL, Git, Linux, HTML, PostgreSQL, Django Framework, C/C++, Python, macOS, Bash, Team Collaboration, English Proficiency.

### Certifications & Training:

- **School 21, Sberbank** – Current student, building foundational and advanced programming and cybersecurity skills.
- **Hack The Box (HTB)** – Ongoing practical training in penetration testing and problem-solving on real-world scenarios.

### Experience with Tools:

- **Penetration Testing Tools:** Burp Suite, Nmap, Metasploit, Wireshark.

- Operating Systems: Proficient in Linux and macOS environments, essential for cybersecurity tasks.
- Automation and Scripting: Skilled in Bash scripting to streamline repetitive tasks and automate testing processes.

Professional Qualities:

- Analytical and methodical approach to identifying vulnerabilities and assessing security.
- Ability to work effectively in a team, with a collaborative approach to problem-solving.
- Strong commitment to continuous learning and professional development in the cybersecurity field.

Objective:

Seeking an opportunity as a Penetration Tester to leverage my skills in ethical hacking, programming, and security analysis to help organizations identify and mitigate security risks effectively.
