Work Experience

06/2016 - 06/2017

Happylatte, Tianjin

Mobile App Developer

Worked as a social game developer in small group in Tianjin.

Although group is small, it is powerful.

Worked well independently and on a team to solve problems.

That was the my first job.

It was really valuable for me and worthwhile.

I will never forget my first loved job.

08/2017 - 07/2019

Evernote, Tianjin

Full-stack Developer

- Worked as a Full-stack engineer in a team.

- Developed strategy and architecture for clients in alignment with business plans and managed delivery of end-to-end projects.

- Developed the authentication flow including register, email/social login, reset password, land confirm email.

- Designed architecture and developed a fast, reliable and scalable REST API for a cloud based recruitment and work force management platform.

- Contributed to developing and updating many end-to-end projects and marketing.

07/2019 - 02/2020

BRYCEN, Tokyo

Project Manager

Worked well independently and on a team to solve problems.

Served as a friendly, hardworking, and punctual employee.

Organized and prioritized work to complete assignments in a timely, efficient manner.

Navigated large workloads with a sense of calm and superior organizational skills.

Utilized effective planning skills to achieve effective company growth rates.

03/2020 - 06/2021

Upwork, HongKong

I have worked for almost 2 years as a senior blockchain developer on the up work site.

I love working with cooperation working with teammates.

I acquire the new skills, abilities and knowledge on this site.

Because there so many developers that acquire the high tech.

I am really delighted because I will always work with them

07/2021 - 02/2022

Crystl Finance, Chicago

Web3 Frontend PM

The only official token of Crystl Finance, \$CRYSTL is a limited asset with a hard capped supply of only 12,500,000 tokens. The token is cross-chain transferrable. Read more about our token here.

Being a \$CRYSTL holder allows investors to earn a portion of the revenue generated by our platform (see Revenue Sharing below for more details). Additionally, \$CRYSTL holders are able to vote on various Governance proposals on the Polygon network.

- Designed and deployed smart contracts for tokens and ICOs including token vesting, refund vaults, and multi-signature wallets.
- React, Typescript, Styled Component, Storybook, Web3.js, Solidity, Git, CI/CD, Cypress, Agile

03/2022 - 06/2022

ThunderPakt Finance, Huntington

Blockchain FullStack Developer

What is ThunderPOKT (tPOKT)? tPOKT is a liquid staking solution that allows you to stake any amount of pokt and start earning rewards instantly. tPOKT is an ERC20 token on the polygon network that is backed 1:1 by native pokt staked on nodes. When tPOKT is minted, ThunderStake stakes the underlying native POKT tokens on POKT nodes, and when rewards accrue on these nodes, Thunderhead will programmatically rebase the tPOKT token, distributing rewards equally to all tPOKT holders every 15 minutes. The permissionless nature of ERC20s allow you to buy/sell tPOKT on a DEX, or participate in other DeFi activities. This means you could sell your tPOKT and circumvent the 21 day unstaking period. Alternatively, at any time, you can burn tPOKT and receive an equal amount of native pokt in 21 days.

- Developed ERC721, ERC1155, ERC20 smart contracts with solidity and some NFT projects based on them.
- Svelte, Tailwind, Uniswap V3 protocol, Web3.js, Solidity, Event tracker, API, GraphQL, Node.js, MongoDB, CI/CD, Agile

Education

09/2012 - 08/2016

Nanjing University, Nanjing

Nanjing University, one of China's key comprehensive universities under the direct supervision of the Ministry of Education, dates from 1902 when it was known as Sanjiang Normal School.

NJU has made remarkable achievements in student education. Its current student body totals around 43,477 (12,655 undergraduates, 11,030 graduates). NJU students have been demonstrating their cutting-edge competitiveness in various competitions inside and outside of China.

- Programming language: Javascript, Python, C++/C, Java, PHP
- subject: Network, Artificial intelligence, Recognize pattern, Recognize image, Embedded system, Distributed system ...
