

ABOUT ME

I am proud that I have portrayed a great balance between music and video production throughout my professional career. I always try to combine different art forms to achieve the highest level of beauty in my work, be it just a simple video advertisement or consulting in a short film. There are many situations where a project requires the work of several people and I am happy to say that I have been able to help my collaborators reach their highest level of productivity and creativity on all of these projects. I may not be a great cameraman, but I know how to encourage the camera person to get the most out of the video clips. When it comes to art direction and video directing, I always say, "I may not know all the techniques, but together we can achieve anything."
