themselves from the corona virus, people all over the world are working on making a vaccine against it. How many countries have been able to produce this vaccine? But in order to reach all the people, the government of all the countries take this vaccine to different local levels in different processes. And the Bangladesh Red Crescent Society, as a partner organization of the Government of Bangladesh, supports this work. For almost 3 years, the Bangladesh Red Crescent Society has supported the government in this work through the local units of all districts in Bangladesh.

School Vaccination Project

School Vaccination Project is a financial cooperation project from Bangladesh Red Crescent Society to Bangladesh Government. Government of Bangladesh issued an order by Health Department to provide Covid-19 vaccine to all students aged 12-18 years and Pfizer provided vaccine to all students aged 12-18 years in Bangladesh. But it was decided in the consultation meeting between Bangladesh Red Crescent Society with the Department of Health of the Government of Bangladesh to pay the honorarium and allowances to the public and private employees who completed this program from the sector and under the supervision of Bangladesh Red Crescent Society and IFRC. will be And one volunteer each from the local units of 64 districts of Bangladesh has been appointed to complete the work of this project.

MPCG for Covid-19 affected families Project

Multipurpose Cash Grant (MPCG) for covid-19 affected families Project is a one-time financial cooperation project by Bangladesh Red Crescent Society among those families who have been affected during the Corona period, whose families have reduced food supply, stopped earning, helpless elderly etc.
