Employment History

Links

Frontend and Design Contractor at Praxis, Remote and Miami, FL.

November 2021 — June 2022

Built the website <u>praxispioneering.com</u>, along with custom landing pages for potential candidates, clients, and investors. The response rate increased by 40%. I also developed UI for Universal Music Group with a top tier team of Silicon Valley AI engineers.

Web Developer at EcoFilm Short Film Festival, Mexico City

February 2017 — July 2020

Built a website to manage 5,000+ users and 30+ venues in 4 cities; developed mobile apps; organized and uploaded more than 10 years of video content; and built an email template system for public and private invitations.

Interactive web Developer at CutOut Fest - Animation Short Film Festival, Queretaro

July 2021 — July 2021

Worked with artists and designers on a number of creative web experiences, like a <u>Win98 simulation</u>, a <u>Twitter bot</u> that published generative images and phrases, and an interactive 3D art exhibition developed with Three.js.

Web Developer at Tulum Film Festival

January 2021 — October 2021

Built the website <u>fictu.com</u> with interactive elements and multi-language support. Effectively consulted the team on any tech needs they ran into throughout the quick decisions required by the film festivals.

Marketing Engineer at Art Gallery - Arca MX, Mexico City

January 2013 — December 2014

Led 10+ street artists, 10+ art exhibitions and 40+ workshops for brands and agencies. Digitized artwork catalogs, promoted through social and physical media and increased sales and leads.

Education

Business & Tech Engineer, Tec de Monterrey Santa Fe, Mexico City

January 2012 — December 2016

Studies in Computer Science and Business Intelligence with outstanding scores at national testing CENEVAL.

School of Economics Berlin, Hochschule für Technik und Wirtschaft

July 2015 — September 2015
