German	◆◆◆◆◆

PROFILE

Experienced Blockchain Developer with a strong background in programming and software development. Proficient in smart contract development, decentralized applications etc. Strong understanding of cryptography and blockchain systems. Skilled in developing blockchain solutions that are scalable, secure, and efficient. Passionate about the potential of blockchain technology to revolutionize industries and improve lives.

I am seeking a challenging role in a reputable organization where I can utilize my technical expertise and innovative ideas to create secure and efficient blockchain solutions.

WORK EXPERIENCE

Blockchain Developer

Infoblockchain IBN

2017-2020

- Develop smart contracts and decentralized applications on Ethereum and other blockchain platforms
- Design and implement blockchain solutions for clients in the finance and healthcare industries
- Conduct security audits and perform penetration testing to ensure blockchain solutions are secure
- Collaborate with team members to deliver high-quality products in an Agile development environment
- Stay up-to-date with the latest developments in blockchain technology and incorporate them into projects
- Participate in peer code reviews and provide feedback to improve code quality

Blockchain Engineer

WT World Trading INC.

2020-Current

- Worked on the development of a decentralized exchange platform using Ethereum and other blockchain technologies
- Implemented smart contracts for token creation, distribution, and trading
- Built a user-friendly front-end for the decentralized exchange platform using React js/ web3js /hardhat/truffle
- Conducted load testing and optimized the platform for scalability
- Participated in the open-source blockchain community by contributing code and participating in events and meetups

Personal Skills

- Strong problem-solving and analytical skills
- Excellent communication and collaboration skills
- Ability to work in a fast-paced and agile environment
- Self-motivated and eager to learn new technologies
