WORK EXPERIENCE

Software Developer

Adewale. T

August 2018 to January 2023 (4 years, 7 months)

- I'm an expert data scientist, quantitative finance analyst, and algorithmic trading developer with a solid background in engineering statistics, and Software development.
- I have experience in trading strategy development with Back Trader, Metatrader, Binance, FTX, and Interactive Brokers and Trader's Ideas. Also Includes FTMO, MFF, Stocks trading, and being a professional trader for many years.
- I can also create custom scripts and indicators in Trading View or Pine script.
- I have good communication skills and acute attention to detail.
- Furthermore, I am looking forward to working with you!

Thanks.
