AKINTOLA SAMUEL

Digital Marketer

I'm an experts at building secure, scalable software that integrates with multiple disparate systems. In the past. I've lent my expertise to companies of all sizes across the U.S.-from startups to enterprises-in industries ranging from healthcare and government to finance and eCommerce, among many others.

My agile, adaptable process makes me a good fit for companies across industries. My genuine love of code and our passion for problem-solving make us the software development company of choice for our partners.

WORK EXPERIENCE

Web Developer
The Gnar Company

2019

As Web Developer in THE GNAR COMPANY I design and construction of websites. I ensure that sites that I created or design meet user expectations by ensuring they look good, run smoothly and offer easy access points with no loading issues between pages or error messages.

EDUCATION

Digital Marketing
University of Michigan-Dearborn

2018

As digital marketer am in charge of all the digital channels and uses them to drive brand awareness and generate leads. That is to say, my roles as a digital marketer's and responsibilities involve overseeing and development of the overall content strategy for an enterprise, as well as marketing campaigns.

CERTIFICATES

jQuery UI Development   *2020*
