

LEAD DEVELOPER

ANTOINE GENONCEAU

I am a confirmed developer with three years of experience in security development. Looking for an interesting project, more about the topic than the technologies. Rather in the BUILD than in the RUN. Ideally remotely.

SKILLS

EDUCATION

ISEN LILLE

Cybersecurity specialization

2018 - 2021

PREPARATORY CLASSES

Roosevelt / Clémenceau (Reims)
(Computer science section)

2016 - 2018

DADAS

Poor songwriter

Very bad triathlete

EXPERIENCE

LEAD DEVELOPER

Worldline

2022 - 2023

- Designing and maintaining authentication and security web services.
- Builds browser fingerprinting tools.
- Ensuring team adherence to project quality standards.
- Taking part in pre-sales business activities, as a technical expert.

WEB SECURITY DEVELOPER

Worldline

2021 - 2022

- Maintaining authentication and security web services.
- Design platform tests, unit-tests and integration tests.
- Builds browser fingerprinting tools.
- Assisting with application troubleshooting and debugging.

MOBILE SECURITY DEVELOPER

Worldline

2020 - 2021

- Develop mobile detectors, taking parts of an Intrusion Detection System (Mostly on Android platform).
- Development of a secure native storage system for our Android and iOS SDKs.
- Develop a Network API based on mbed TLS.
- Design some testing tools and CI/CD pipelines, in order to test native code (C++).
