

Boaz Zaidler

PROJECT MANAGER | CRYPTO CONSULTANT

EXPERIENCE

US.Embassy | 2017-2022

Shift Supervisor at Jerusalem & TLV

I managed the security force at the embassy facilities during routine and emergencies. Between the official factors above me and the guards under my responsibility, I improved my organizational & communicational skills. I practiced problem solving, risks analysis, and providing ongoing updates.

"Brave Together" | 2020-2021

Founder and Manager

Together with two other founders, I worked to obtain resources and collaborations. I created connections within the community, and managed the creative system in the project- including writing content and distributing it on the various networks. We successfully established a broad weekly activity, connecting & integrating between Jerusalem youth and Holocaust survivors.

Military Service | 2012-2015

Fighter and Squad Commander in "Egoz" Unit

I gained experience leading a combat team to success in cooperation, along with physical and mental difficulties in extreme situations. I worked closely with the company commander- and participated in coordinating and planning operational activities, plus developing and designing trainings.

Pre Army Service Year | 2011-2012

"Garin Oded" Program

I went through dozens of seminars and instructors courses, which some of them I instructed myself. I initiated activities in the community, and planned and led trips (of hundreds of children). I perfected budgeting, planning and executing projects, creatively passing ideas through content & activities. I mentored youths, guides and groups as a facilitator, as a guide and as a friend.
