PROFILE

Creative and highly skilled Full-Stack Web Developer with 3+ years of hands-on experience in building fast, scalable, and visually stunning web applications. Specializing in React, Next.js, and modern backend technologies like FastAPI and Firebase. Known for blending clean design with robust functionality. Adept at turning client ideas into production-ready, high-performance digital products. Open to freelance, part-time, or full-time remote contracts.

WORK EXPERIENCE

FREELANCE FULL-STACK DEVELOPER

Really Great

Remote | 2022 – Present

- Delivered 15+ responsive web apps and landing pages for startups, creators, and small businesses
- Designed frontends with React/Next.js, integrated backends with FastAPI or Firebase
- Built database systems for user authentication, dashboards, and data-driven features
- Optimized websites for performance, SEO, and mobile-first UX
- Worked directly with clients using crypto payments and smart contracts (LaborX, private clients)

Frontend Web Designer (Freelance)

Remote | 2021 – Present

- Crafted custom UI components with TailwindCSS and Framer Motion
- Focused on branding consistency, minimal design, and user-centered interfaces
- Created responsive themes, single-page designs, and animated sections
