🏠 Angarskoe, Almaty, Kustanay, Kostanay region, 110305

📅 28 years old

🇰🇿 Kazakhstani, Kazakh

## ABOUT

*Always the desire for learning and the steady power of inquiry will lead me to a higher place.  
My dream is to become a creative developer who brings miraculous luck to you through my endless passion and exploration.  
visible is not all.*

## SKILLS

### frontend

HTML, CSS, JavaScript, Bootstrap, React, Next.js, Shopify, website Design, TailwindCSS, styled component

### backend

PHP, C#, Node.js, MongoDB, MySQL

## LANGUAGES

### English

### Russian

## EDUCATION

- **Bachelor of Science in Computer Science** KIMEP University **Almaty Region, Kazakhstan** From 2017 to 2021

## WORK EXPERIENCE

- **Frontend developer** Yandex **remote** From 2022 to August 2023
  - Implemented internal tools to speed up development and research processes.
  - Reviewed designs and provided feedback to improve UI and UX solutions.
- **Frontend developer** Alabs.Team **almaty** From 2021 to 2022
  - Developed a website with React and TypeScript for one of Kazakhstan's biggest mobile network operators.
  - Collaborated with designers and implemented pixel-perfect reusable UI components on React.
  - Maintained code quality via scrupulous code reviews on GitLab.
  - Handled the website localization in three languages: Kazakh, Russian, and English.
  - Progressed to a middle-level position after the internship.

## EXPERIENCE

### ● Kaz Azot

Kaz Azot is a system to track reports about ecological releases and material consumption from companies in Kazakhstan.

I worked as a full-stack developer on this project and used React for the front end and Node.js for the back end. I created a full-featured front end with three different roles and permissions. I also designed the database relations and REST API endpoints.

### ● Logizi

React-based web application for eCommerce to solve logistics problems in Kazakhstan.

Developed two different front-end modules with shared custom UI components:

1. Landing and test functionality for users
2. Admin panel for managing orders
