SOME OF THE PROJECTS

🕐 Themodel.cloud

- Joomla based freelancing project actors and models. This website provides the same service like freelance.in or odesk.com for actors and models based in the United Kingdom.

🕐 National Personal Training Program

- This website provides health and fitness related online courses to customers where instructors can join and create new health and fitness related courses and can sell online country and territory wise around the world.

🕐 Dealer Commander

- E-Commerce website based on a US based tax system developed for US based client's e-commerce as well as ERP system. Worked on support as well as extend features.

🕐 Anyone Home CRM

- Anyone Home CRM property management project developed in Php and Cakephp as a sass and I worked on that project as a support and extension developer. I have worked there in a team size of more than 15.

🕐 Morelessons.Co.Uk

- Morelessons.co.uk was an e-learning platform where private tutors were able to create courses on platform or provide tutoring services online, offline, or on separate venues decided by both teachers and students. Worked on contract basis for 6 months for this project. Project was totally developed in joomla.

⊕ **voiceoceanllp.com**

⊕ Project Offers people and communities seamless language support in order that no ideas and thoughts should remain unexpressed due to language barriers. Developed in laravel for selling voice samples online. Worked on support tasks for the project and gone the code.

ADDITIONAL SKILLS

⊕ Proficient in Angular js, Laravel, React js, Php 5 / 7, Html / css - 5 / css - 3, Codeigniter: MVC framework Wordpress , Joomla, Javascript / jQuery
⊕ Fluent in English, Hindi, and Marathi

Dear Hiring Manager,

I am writing to express my interest in the [Job Title] position at [Company Name], as advertised. With over 7.3 of experience in software development, particularly in PHP, WordPress, and digital marketing, I am confident in my ability to contribute effectively to your team.

In my most recent role at Facile Services Pvt Ltd., I served as a WordPress Developer and Digital Marketing specialist, where I collaborated with a team of 8 members to create landing pages, develop WordPress websites, and manage marketing email campaigns.

Prior to this, at Plus91 Technologies Pvt. Ltd., I gained valuable experience working with a team of 22 members on OPD / IPD Hospital Management Systems. I actively participated in agile software development, utilized CorePHP framework and MySQL, and collaborated with government officials to meet project requirements.

During my tenure at Anyone Home IT Services Ltd., I further honed my skills in software development and support for CRM applications, working with a team of 15 members. My responsibilities included resolving support tickets, testing applications, and working in an agile environment using CakePHP framework and PostgreSQL.

Additionally, my experience at Terse Software Pvt. Ltd. and Sparken IT Solutions Pvt. Ltd. has equipped me with a diverse skill set, including developing REST APIs, mobile services, and backend admin panels for various projects, as well as providing support and extending functionalities for e-commerce platforms.

I am excited about the opportunity to bring my unique blend of skills and experiences to [Company Name]. I am confident that my strong technical skills, coupled with my ability to work effectively in team environments, make me a perfect fit for this role.

Thank you for considering my application. I look forward to the possibility of discussing this exciting opportunity with you.

Sincerely,
Best regards,
