WHY SHOULD YOU HIRE ME

I can fit and contribute well to the team. I believe in the skills and experience in the field of gaming that I possess. Playing online and multiplayer games have been a part of my youth. The first thing that I do when I got home from school is to play online games. I am fond of online games because it requires thinking and strategic planning. I would like to utilize my experience and skills in gaming by being an Axie scholar. I will use this opportunity to help my parents with the expenses at home.
