EXPERIENCE

Android Developer-Project manager

2012-2017

Started professional working as android developer in Parto Andishan Co. Beside developing apps, improved project management skills. Became one of the most valuable company employers. More than 16 completed projects and lots of recommendations.

Freelance Developer

2015-PRESENT

Started to work as individual developer in order to seek my dreams and being free from location based positions. Also improved my skills.

Full Stack Developer

2019-PRESENT

After releasing official versions of Flutter framework by Google, got interested and started to seek for positions and projects which lets me do more and more FLUTTERING. Finished 5 projects for Avije Co. also have 2 in process.
