Summary

Over 7+ years of experience specialized in System Administration working on Redhat Linux, Solaris, Suse Linux, AIX, Cent OS, Fedora,Debian, OEL and Windows environments. Experience in administering Solaris & Linux. Experience in Installation, Configuration, Backup, Recovery, Maintenance, Support of Sun Solaris & Linux. Experience in Installing, upgrading and configuring RedHat Linux 3.x, 4.x, 5.x using Kickstart Servers and Interactive Installation.

My career has centered on maintaining infrastructure in various small to large Linux virtual environments.

I am eager to utilize my leadership skills and consultative approach to maximize an organization's growth potential while

staying mindful of the company's ultimate goal and implementing systems that provide flexibility, security and scalability.
