Work Experience

Air New Zealand | United States

Senior Front End Developer

May.2021 - Jun.2023

- Led the front-end development for Air New Zealand's famous booking site, playing a pivotal role in creating an intuitive and seamless user experience.
- Utilized **React** to design and implement responsive and interactive user interfaces, ensuring a smooth booking process for users across devices.
- Applied **Tailwind CSS** to achieve a consistent and visually appealing design language, enhancing the site's aesthetic and usability.
- Implemented **TypeScript** to bring type safety to the codebase, resulting in improved maintainability and reduced runtime errors.
- Collaborated closely with UX/UI designers to translate design concepts into functional and visually appealing features.
- Stayed updated with the latest industry trends and incorporated new technologies to enhance the site's functionality.
- Mentored junior developers, fostering a collaborative and knowledge-sharing environment.

JobCloud | Switzerland

Full Stack Developer

Jul.2018 - Apr.2021

- Led the development and **maintenance** of JobCloud's platform, providing a seamless experience for clients to find the right developers and candidates to secure employment.
- Utilized the **MEAN** stack to design and implement scalable and efficient features, enhancing the overall functionality of the job site.
- Designed and optimized the backend architecture using **MongoDB**, **Express**, and **Node.js**, ensuring efficient data storage, retrieval, and seamless communication between the client and server.

- Implemented user-friendly interfaces with **Angular**, ensuring an intuitive and responsive design for clients and candidates.
- Established **CI/CD** pipelines to automate testing and deployment processes, ensuring rapid and reliable releases.
- Developed backend functionalities using **Node.js** and **Express.js**, enabling robust data **management** and API integrations.
- Implemented **version control** strategies to manage code changes effectively.

iClassPro | United States

Full Stack Developer

May.2016 - May.2018

- Spearheaded the development and **enhancement** of iClassPro's comprehensive solution for class management, student tracking, and business operations.
- Leveraged **Laravel** and **MySQL** to design and implement scalable and secure backend functionalities, ensuring efficient data management and integration.
- Developed intuitive and responsive user interfaces using **React**, enhancing the overall user experience for clients in the gymnastics, swim, cheer, and dance industries.
- Collaborated with cross-functional teams to understand business requirements and translate them into **technical solutions**.
- Utilized smart reporting and analytics tools to provide actionable insights for data-driven business decisions.
- Contributed to workflow simplification, resulting in increased efficiency and reduced operational costs.

Education

University College Dublin

, Bachelor of Computer Science

May.2011 - Jun.2015

Skills

React

SUMMARY

I'm an accomplished senior web developer with over 8 years of hands-on experience.

My expertise lies in front-end development, where I excel in crafting immersive user interfaces using technologies such as **React**, **Vue**, **Angular**, and more.

My proficiency extends to **TypeScript**, **TailwindCSS** and **Bootstrap**, ensuring **pixel-perfect** designs.

While my core strength is in front-end, I possess a solid understanding of backend technologies like **Node.js**, **Express.js**, **MySQL**, **PHP**, and **Laravel**, along with a familiarity with **MongoDB**.

My passion for staying at the forefront of technological advancements drives me to continually explore new tools and frameworks.

Collaborative by nature, I thrive in a team environment, valuing teamwork and collective problem-solving.
