PROFILE

Hi, I am Cielo, a simple-shy-type-struggling Graphic Arist Living in Philippines. Last 2016 I graduated with a Degree of Bachelor of Arts in Animation and decided to learn design through working in a company; Suddenly, I got the urge to study Culinary for a year and graduated last 2018. But I decided to work in a blue collar field wherein I can be more practical for my own health and safety. through years of working I learned various of works, in an ecommerce, printing and various of projects wherein i take it as an experience or new learning to step further from where I am. But as I grow older, I realize I needed to earn for myself, and work for myself, for my own future. I enjoyed whenever I help and make someone happy through my works and I enjoyed taking photography of good places.

Make everything simple and peaceful.
