#### // OVERPOINT

My name is Reza Rahimi Nejad. I have over 19 years of experience in animation, motion graphics and special effects. I have experience working with reputed companies, and have made television commercials for famous companies such as Samsung. In many successful projects, especially the ones I've worked with as a freelancer, I have been moving from content production to sound effects alone. However, in many projects I have been very successful as a project team member and have worked closely and fluentley with other members of the team. I care about discipline in projects and the workplace. And I adhere to the delivery time of each project.

You can take a look at my portfolio via the link below.
