Summary

To work in and be part of a reputable organization which enables me to exercise my professional and educational learning and assists me to enhance my skills and abilities of working under the strict and challenging environment. I want to be a part of an organization where I can learn the new technologies and can work to my full potential and to prove myself as an asset to the organization.

My aim is to increase my skills and benefit the organization. I'll work in with my full dedication, loyalty and support. I am looking forward for a long term working relationship in a reputed organization. Being a dedicated and good resource, I assure my availability to work under pressures and to meet strict deadlines by working in a team or at an individual level.

Experience Summary

- **7+ year of total work experience in Software House of IT Game Industry**
 - Game Developer at Galassia Studios (**September, 2014 - February, 2018**)
 - Game Developer and Team Lead at Highlogix pvt. Ltd (**February,2018 - February, 2019**)
 - **Doing Freelance work around the globe(February, 2019 - Present)**
 - Proficient experience in making android games (2D,3D) in Unity Engine.
 - Proficient of converting and uploading android games into IOS using MacBook.
 - Proficient to making proper logic while solving a problem using C# language.
 - Proficient of making little type of desktop applications in c# visual studios plus MS-SQL database.
 - Proficient of making new desktop application using c# at backend & visual studio at front end.
 - Proficient to making the simple application while using python language.
 - I have also been created more than 2 ecommerce website using word-press.
 - **Currently working Unity Game Developer as a Freelancer around the globe.**

INDIVIDUAL PROJECTS

- **Several 2D and 3D Games**
 - I have been completed 400+ project in my journey
 - Few Links are attached and rest all will be provided on Request.
 - All Game are publishing on Google and App-Store.

Tools & Technologies:

➤ ***Programming Skills:***

- Experienced in Unity3D Game Development from a vast no of Years.
- Experienced in Team Handling a complete game from scratch.
- Experienced in Adobe Photoshop, Design, ASO Tools.
- Experienced in developed a complete game from scratch (**Android, IOS, Desktop**).
- Experienced in Java Technologies like J2SE, J2EE.
- Good Knowledge of Databases and DBMS including MS SQL server.
- Good knowledge and experience in C#
- Knowledge about WPF and Windows Form
- Scripting and Coding in HTML, CSS and C#.
- Internet browsing and HTML hosting/Coding.
- Online blog handling and manufacturing like Word-Press.

➤ ***Tools:***

- ***Experience in different development tools like:***
 - Unity 3D(multiple versions)
 - Adobe Photoshop
 - Adobe Illustrator
 - App Annie, Sensor Tower, Keywords Tool, Uber Suggest
 - Content Writing

- X-code
- Mono-develop
- Visual Studio
- Dev C++
- Eclipse
- Net Beans IDE 7.4
- Notepad++
- Microsoft Visio
- MS Office
- Much more...

Academics:

2016 Bachelor in Computer Science (BSCS)Hons CGPA – 3.58/4.0
Virtual University, Lahore.

2012 Fsc Pre-Engineering (Mathematics, Physics, Chemistry) 1st Dev
BISE, Lahore.

2010 Matriculation (Science) 1st Dev
BISE, Lahore.

Final Project:

- **Developed a computerized security based desktop application called “SIT” (Step in Security),** The main idea of the project is to provide complete security to any Society/Colony by maintaining the records of its residents, workers and those persons who visit the colony/society. Any Society/Colony can be made fully secured by having a proper check like who enters and leaves colony at what time, who is the resident and who is the visitor etc.
- To develop this application, we use **Visual Studios 2013** as framework and **SQL Server 2012** for data storage.

Major Academic Projects:

➤ **Reservation Management System**

- It was desktop application developed as a semester project activity of subject “Database Management System (DBMS)”. The main purpose of project is to reserve the seats of different flights and managing the flights data (by admin) by implementing CRUD (add, update and delete etc). Used .Net for developing front end application. Also, build Entity Relationship diagrams (ERD), Data Flow diagrams (DFD) and DB designs for Flight Reservation System.

➤ **Face Detection**

- Desktop application developed in .net and C# which invokes the Face API to detect face in an image, essentially by framing the faces. The main purpose of face detection is to identify the human face image in digital form. It also detects the human faces which might then be used to recognize a particular face.

➤ **Asynchronous Chat Conversation**

- It's a desktop based application which is used to send message to other machine using UDP protocol and other machine gets and shows the message by listening its port.

➤ **Quiz based System in Windows Form**

- In quiz based system, developed a simple desktop application just like an exam application which is based on MCQ, using C# and .net. A quiz is a form of game or mind sport, in which the players (as individual or in team) try to attempt the answer of question correctly. If someone does not attempt the answer correctly, system will mark it as false.

➤ **Tic Tac Toe Game in Windows Form**

- Two player small games, who take turns marking filling in spaces in a 3 by 3 grid. The player who succeeds in placing three respective marks in either a horizontal, vertical or diagonal row wins the game.

➤ **Calculator**

- Small application which is used to perform only addition, subtraction, multiplication and division.

Professional Courses:

➤ **Awarded by “Unity 3D Game Development Training” certificate for the successful completion of three month training from “Virtual University of Pakistan Lahore, Pakistan.”**

- This course was about to develop a native car racing game using unity 3D tool.
- Completed academic project concerning to the course, held at VU.

➤ **3 Month of diploma in Graphics Design**

➤ **Diploma in Computer basic + Advance**

➤ **Diploma in Python Programming**

➤ **Diploma in Unity Game Development(6-Month)**

➤ **Diploma in Blogging Content Writing**

➤ **Diploma in Digital & Social Media Marketing(6-Month)**

➤ **Diploma in Search Engine Optimization(SEO,ASO)**

Achievements:

- Awarded by Merit based Scholarship from “Virtual University, Pakistan” from semester 4th to semester 8th
- Hafiz-e-Quran Certified.
