OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization, and making it a well known project globally.

EDUCATION

University of Lagos

2020

IT and Computer Science

EXPERIENCE

Melaxy NFT project

April 2022 - Present

Community moderator

Managed and ensured the smooth running of the project's discord and telegram server, organized events and AMA sessions with the community, as well as help members with questions and suggestions about the project.

Solden NFT project

February,2020 - Present

Community moderator

As a game fi project, I was tasked with engaging members in the gaming environment, looking for partnership, as well as hosting games and events for the community.

Toastpunks NFT project

2021 - 2022

Community Manager/Project advisor

Served as the project manager, served as a consultant and giving ideas and suggestions for the development of the project, in charge of Twitter promotion.

BoxBytes NFT

August 2022 - Till date

Admin/Head Mod.

Head of mods and in charge of Project's discord and Telegram, coordinated the community, brought up solutions and ideas regarding engagement and community outreach, I also saw the activity and commitment of other mods/workers.

PANTHRA NFT

December 2022 - Till date

Community moderator

I was in charge of community engagement, shilling and promoting the project to bring in more members and investors, organized events and activities within the server, also in charge of all activities conducted within the community.
