**English:** Native

## ABOUT ME

*I'm a web developer, specializing in building frontend websites and web games that are fast, accessible, and responsive. With a passion for excellence, I deliver applications that meet your needs and exceed your expectations. Connecting with others broadens my perspective, researching new technologies helps me stay current, and playing games fuels my creativity and aids in improving user experiences. Embracing these diverse interests, including connecting, researching, and gaming, allows me to approach my work with a broader outlook and a deeper understanding. I am enthusiastic about contributing to projects that leverage technology to address real-world issues, enhance people's lives, and bring joy through entertaining experiences.*

## EDUCATION

### Bachelor of Science | University of Benin

📅 01 2020 – Present        📍 Benin City, Nigeria

### Secondary School | Vondorix Int'l Schools

📅 09 2013 – 07 2019        📍 Port Harcourt, Nigeria

## PROJECTS

### UnibenStore | ⌨ | 🌐

📅 10 2021 – 03 2022

- Users and vendors can create accounts and showcase their projects on the platform
- Users can easily order products from vendors and pay securely via Paystack.
- The platform provides a smooth and reliable transaction experience for both parties.

### 3d Fighting Demo | ⌨ | 🌐

📅 03 2023 – 04 2023

- Developed a 3D fighting game demo using Three.js and Cannon.js, offering an engaging single-player mode against computer-controlled opponents.
- Incorporated a multiplayer mode for players to challenge their friends, enhancing the social and competitive aspects of the game.
- Incorporated a multiplayer mode for players to challenge their friends, enhancing the social and competitive aspects of the game.
