Accountant Specialized in Cost Management and Development of Accounting Programs

Professional Summary

- An accountant with over 20 years of extensive experience in cost management and accounting.
- I specialize in developing advanced accounting solutions using Visual Basic and Excel in Microsoft Excel, which have led to improvements in electrical network performance and enhanced accuracy in product composition and fixed asset calculations.
- I have the ability to analyze data and manage processes efficiently, contributing to improved financial and operational performance.

PROFESSIONAL EXPERIENCE

- North Delta Electricity Distribution Company, Mansoura (2002 – Present)
- Cost Management Accountant (2014 - Present)
- Developed and implemented advanced accounting programs using Visual Basic and Excel to enhance cost calculation accuracy.
- Analyzed financial data and provided detailed reports that support strategic decision-making.
- Managed processes to improve electrical network performance through customized programs, leading to increased efficiency and reduced operational costs.
- Designed a program for calculating fixed assets for electrical networks, lines, and feeders, improving asset management and financial reporting accuracy.
- Inventory Supervisor (2004 - 2014)
- Managed and supervised inventory and distribution processes to ensure data accuracy and meet required needs.
- Implemented strategies to improve inventory management and address quantity and quality issues.
- Developed and enhanced inventory management systems to achieve operational efficiency and cost reduction.

OTHER PROFESSIONAL EXPERIENCE

- Developed Accounting Programs: Product Composition Calculation Program: An advanced tool for accurately analyzing and estimating product composition.
- Electrical Network Performance Improvement Program: An innovative system for analyzing and improving network performance, contributing to increased operational efficiency.
- Fixed Assets Calculation Program: A precise program for calculating and managing fixed assets for electrical networks, lines, and feeders, supporting effective financial management.

EDUCATION

- Bachelor of Commerce, Mansoura University, 2001

CERTIFICATIONS AND COURSES

- (ICDL) International Computer Driving Licence.
- Financial And Cost Accounting Courses.
- Specialized training in financial and cost accounting.
- (LDC) from the Leadership Development Center.
- English Language Course at B2 Level (B2)
- Google Data Analytics Certificate, Training in data analysis using Google tools
- Leadership 2030 from Million Entrepreneur Project

SKILLS

- Accounting Software Development: Advanced experience in developing programs using Visual Basic and Excel to improve report accuracy and cost analysis.
- Data Analysis: Strong skills in data analysis and providing precise insights that support strategic decision-making.
- Cost Management: Ability to manage and analyze costs efficiently to achieve financial goals.
- Inventory Management: Advanced skills in managing and monitoring inventory to ensure operational effectiveness.
