### PROJECTS

## **Solar Powered Generating shade enclosure**

Built a solar powered generating enclosure during my final year project, materials to which made such a project quite a success was, was a combination of two types of Solar powered, sheets in line with with a well welded structure, more of a shade to which anyone could sit with his or friends and discuss at ease, inline with a set of solar powered 24 amps 🌞 Solar battery, capable feeding the whole department building, a well suitable amount of energy, during the day and mostly at night.
