- 75- 100 SLP
- 8-10 HRS

EDUCATIONAL BACKGROUND

Elementary: San Agustin Elementary: school

Secondary: Metro Manila college Senior high: Metro manila College

Tertiary: STI Novaliches

GAMING DEVICES

- Smartphone (Redmi Note 9)

WHY I AM APPLYING FOR THE SCHOLARSHIP?

The first reason is because I want to help my family financially and support all my needs especially in my education. And I also want to help those in need, of course not now but soon when I become a scholar and come to the point where I can build my own teams.

WHY YOU SHOULD HIRE ME?

Since I am a gamer I really do research and study the gameplay, how it works on any kind of games. Because for me games is not just a games, its a passion for a gamer like me. Since it's a passion for me I don't just play a game I do the research and everything I must know about the game because for me it's not just about a game like anyone else think, for me it's about winnings and being successful in the long run and I can proudly announced that once I give focus on a game I can play until I reached my goal. Once I reached my goal my next goal is to surpass my high score. So once you hired me I will assure you will you not regret it, instead you will feel the benefits of what I can or I will bring in your team.
