

The Future of Non-Fungible Finance

THE QUESTION

Who wins the race – the tortoise or the hare?
Trick question: **they're running different races.**

In crypto – and in life – people want outsized gains with minimized risk. They also want to “get rich quick” while doing it for a long time.

Wouldn't it be **GREAT** if there were **one token** that paid you both fast *and* over time?

THE SOLUTION

We both love crypto, but it needs to be **better**. We want:

- daily rewards for holding
- stable-to-upwards buy pressure to increase the value of your tokens
- deterrents to dumping and bonuses for long term holding
- buybacks to stabilize the token price
- guaranteed liquidity for easy token trading
- discounts for being a loyal member
- backed by a name and organization you can **trust**

You want the best of both worlds: **daily passive income & long-term profitability.**

CD3Fi REDEFINES THE RACE.

CinemaDraft DeFi (CD3Fi) gives you:

1. Immediate BUSD & CD3Fi rewards
2. CD3D holder quarterly airdrops
3. Deflationary tokenomics
4. Stability Fund for price control
5. Dynamic Taxation to punish dumping
6. Discounted buying w/CD3D
7. Instant utility w/CD3D products
8. Access to **Non-Fungible Bonds (NFBs)**

HOW IT WORKS

15%

Buy Transaction Fee

Deflationary tokenomics, transactional rewards, and price stability. STABILITY FUND triggers when 5%+ difference of LP remains sold after 60 minutes, buying a matching % of its own fund.

- 3% - BUSD rewards
- 3% - CD3Fi reflection
- 4% - BUSD rewards
- 5% - Stability Fund

18%

Sell Transaction Fee

All the same fees + a MARKETING FUND. Sellers pay extra to continue the marketing of the economy & community. Higher sell fee encourages more holding.

- 3% - Marketing Fund
- 3% - BUSD rewards
- 3% - CD3Fi reflection
- 4% - BUSD rewards
- 5% - Stability Fund

5%+

Dynamic Taxation

Whales Beware: Additional tax for selling 0.5%+ of Liquidity Pool. An added 5% sell fee per 0.5% of LP sold (max 93%). Funds recycled right back into the CD3Fi community. Punish dumpers - *tax the rich!*

- 25% BUSD
- 25% CD3Fi reflection
- 25% buyback & burn
- 25% Stability Fund

NON-FUNGIBLE BONDS (NFB)

- incrementally more expensive **bonded curve pricing for bonds**
- minimum total **guaranteed payout** split evenly among bondholders
- **backed by a sponsor** organization/company/VC
- requires **minimum 1000 CD3Fi** in order to **buy OR sell** it
- earn both **BUSD and CD3Fi rewards** for holding it
- **Guarantee Fund**
 - receives a portion of every transaction to ensure payout amount
 - any shortfall at time of maturity to be paid by Sponsor
 - any overage split among bondholders
 - 10% of quarterly revenue to bondholders as BUSD & CD3Fi rewards
- can **buy at a discount using CD3D** via CD3Fi (70% first year, 60% second, 50% Year 3+)
- **maximum 5 bonds** per address
