

## Proposal

Hello, I'm **Agress** and in the next 3 paragraphs I'm going to explain to you why you should hire me.

In addition to having experience within the audiovisual field, I also have extensive knowledge within **audiovisual production**, nurturing my videos and generating even more immersion in the viewer, thank you to my **color correction** and **audio mixing**.

I worked very closely with content creators, clothing brands, real estate, among others. Working together from the beginning of production to its end in post-production to be able to provide **high-value** content.

To edit I use **DaVinci Resolve**, which is one of the most useful tools. highlights for professional grading.

Among other tools that I use are also the following:

- *Adobe Photoshop*
- *Adobe Illustrator*
- *Adobe After Effects*
- *Blender*
- *Figma*

I also like to learn languages because of what I speak...

- *Spanish (Native)*
- *Portuguese (Fluent)*
- *English (Intermediate)*

*Why intermediate?*

Intermediate level because my passive skills are excellent, but my active skills (speaking) are a bit weaker, but I find myself improving them day by day!

Here is ***my portfolio*** so you can see some of my work

<https://www.youtube.com/@AgressVisuals/shorts>

*My works can be found on youtube so that they don't lose their **quality**.*

*Thanks for reading the proposal*
