SOCIAL MEDIA CONTENT CREATION - LINKEDIN

While at Metricoid Technology Solutions, I effectively managed the company's Social Media channel (LinkedIn most especially). During my 3 months internship I was able to take up followership by as much as 200% with relevant and authoritative contents and targeted posts. Prior to my arrival the page had little over 700 followers, after handling the page for 3 months, followership increased to over 1.4k

These are all the contents I developed, Check from <u>This</u> to <u>This</u> (please change sort by to "recent")
