

ABOUT US

WHO WE ARE

About Us

Established in 2019, and is Situated in Karachi & Lahore. Lumos Consultant is based on the foundation of 'Quality' – the quality of design, process, and service. From conceptual design to construction management, we aim to provide our clients with innovation and design excellence every step of the way.

Lumos Consulting is a building services engineering company that provides a strategic, flexible, experienced and innovative approach to delivering engineering and management consultancy services for its clients. We have a proven track record in delivering client projects to the most demanding of timescales, with in budget and with the lowest possible client risk. This specialist expertise and experience gives our clients the confidence and peace of mind from the outset that their project is in the best possible hands. All our projects are led by a highly experienced engineers and a team with a passion for delivering high quality commercial engineering solutions a long side an excellent level of service. As part of this approach, we focus on designing out systems rather than designing in complex and expensive kit and in seeking to balance the up-front capital cost of equipment and services against the associated life cycle costs of operating the building and provide options based on specific commercial requirements. Our approach bodies the maximum possible contribution from each of the three pillars of environmental ,economic and social sustain ability. In summary, we believe our commercial engineering approach and passion for delivering the highest levels of customer service sets us apart from other consultants and consistently delivers considerable added value to any project.
