

Simple Clothing Store Website

A clean and responsive **clothing store landing page** built with **HTML**, **CSS**, **Bootstrap**, and a touch of **JavaScript**. Perfect for showcasing clothing items with prices in a simple and user-friendly layout.

Features

- Simple & clean product grid
 - Images of clothing items
 - Visible pricing for each item
 - Bootstrap-based responsive layout
 - Hover effects and subtle interactions
 - Small JS script (e.g., "Add to cart" alert)
-
