

Stephanie Koczela – Full Stack Developer Portfolio

Stephanie Koczela – Full Stack Developer Portfolio

About Me

Hi! I'm Stephanie Koczela, a Kansas City-based Full Stack Developer with over 15 years of freelance experience. I specialize in building responsive, scalable web applications and robust backend systems for clients across the globe. My passion lies in creating seamless digital experiences—from simple websites to complex SaaS platforms.

What I Do

- Web Development (HTML, CSS, JavaScript, React, Vue)
- Backend Engineering (Node.js, Django, Laravel, PHP, Python)
- API Integration (REST, GraphQL, Stripe, PayPal, Twilio)
- CMS Development (WordPress, Shopify)
- DevOps (Docker, GitHub Actions, AWS, Netlify)
- E-commerce Solutions
- Custom Dashboards & Admin Panels

Project Highlights - Real-Time SaaS Dashboard

- Built for a U.S.-based startup
- Used React, Node.js, and MongoDB
- Features: live analytics, role-based access, and reporting

Project Highlights - E-commerce Storefront (Shopify)

- Developed for a boutique retail brand
- Customized product filters, payment integration, and delivery logic
- Reduced cart abandonment by 40%

Project Highlights - Healthcare Appointment System

- Django-based web app for a private clinic
- Included secure login, patient records, and SMS reminders
- HIPAA-aligned data handling

Project Highlights - NGO Donation Platform

- Developed with WordPress and custom plugins
- Integrated Stripe and PayPal for donations
- Enabled multilingual content and real-time reporting
