JOJO MK

JOJO, since he was young had always admired and wanted to become like his idol, the MonkeyKing Wukong Sun! Wukong know many tricks, transformations JOJO likes the most! In this modern world where no magic exists, how can JOJO do transformation? He had an idea, which is becoming a model. He thinks that by turning into a model, it can let him transform into anything he wants, a tree, a crab, anything! Of course with his silly ideas, the outcomes can be either very successful, or very wrong.

In his thoughts he had partially become the Monkeyking, but he thought to himself, it is not enough. Again he ponders: "If no one knows I'm the Monkeyking, then what's the point of working so hard?" He believes that one day, he will finally achieve his dreams to become the Monkeyking that he always wanted to be. No matter how, he vowed that he would surely have his name be known in the lands across Earth. But until then, will everyone remember him, as JOJO. The Monkeyking wannabe.

JOJO MonkeyKING
