

Starbucks Landing Page

A clean and modern landing page for **Starbucks**, designed with HTML, CSS, and JavaScript. It mimics the look and feel of a real brand website and showcases responsive design, smooth animations, and interactivity.

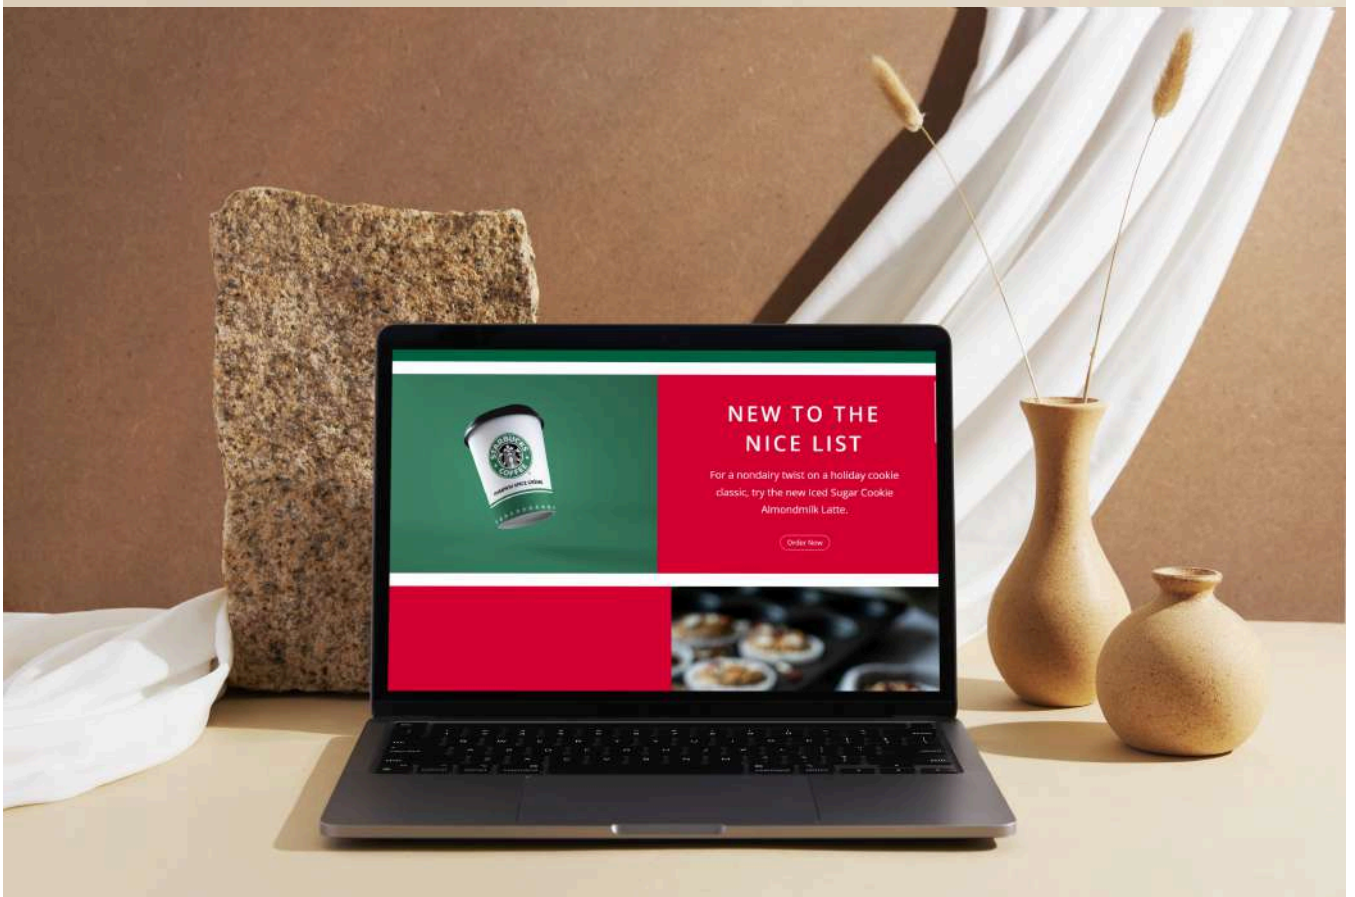

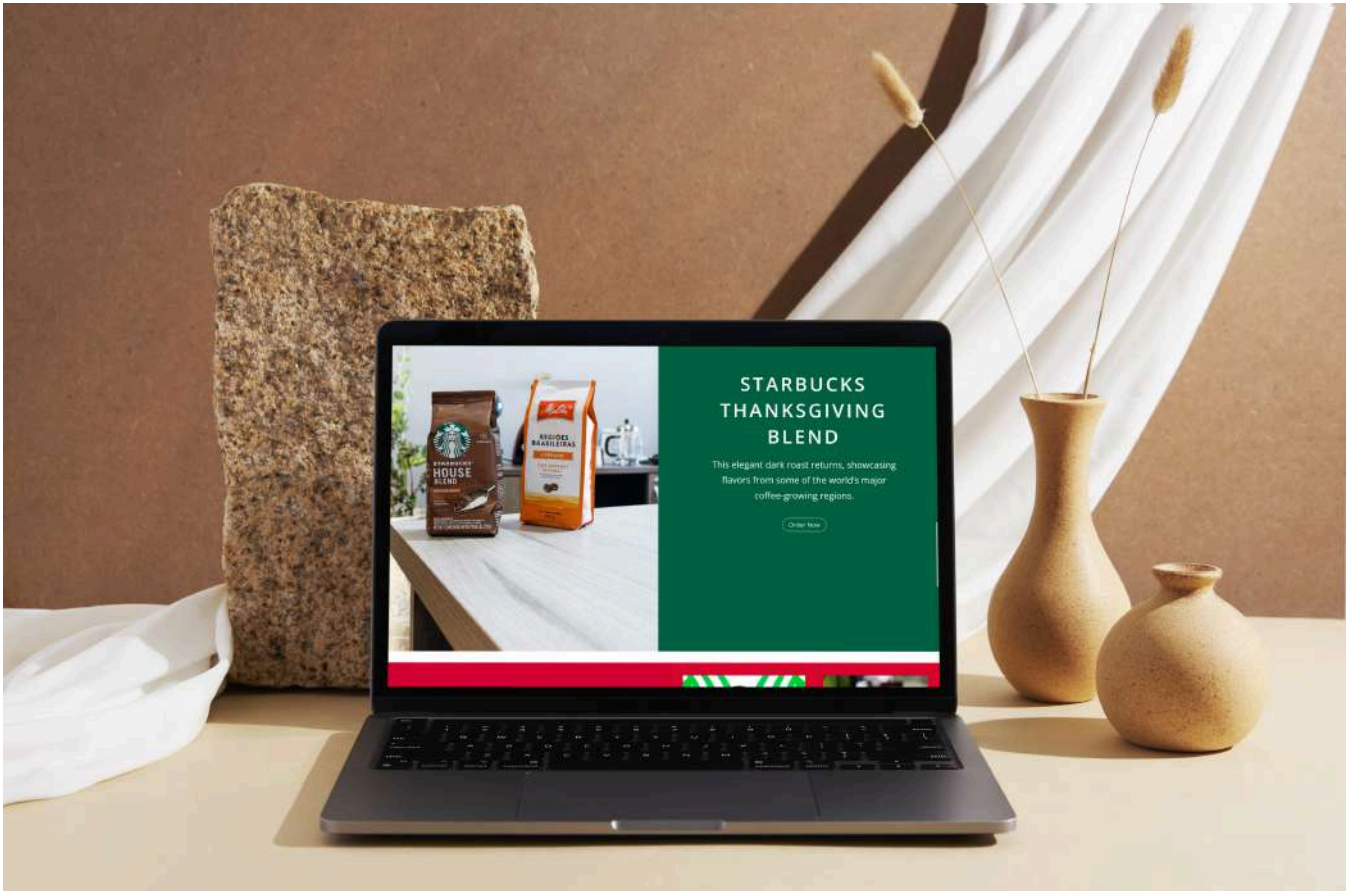

Features

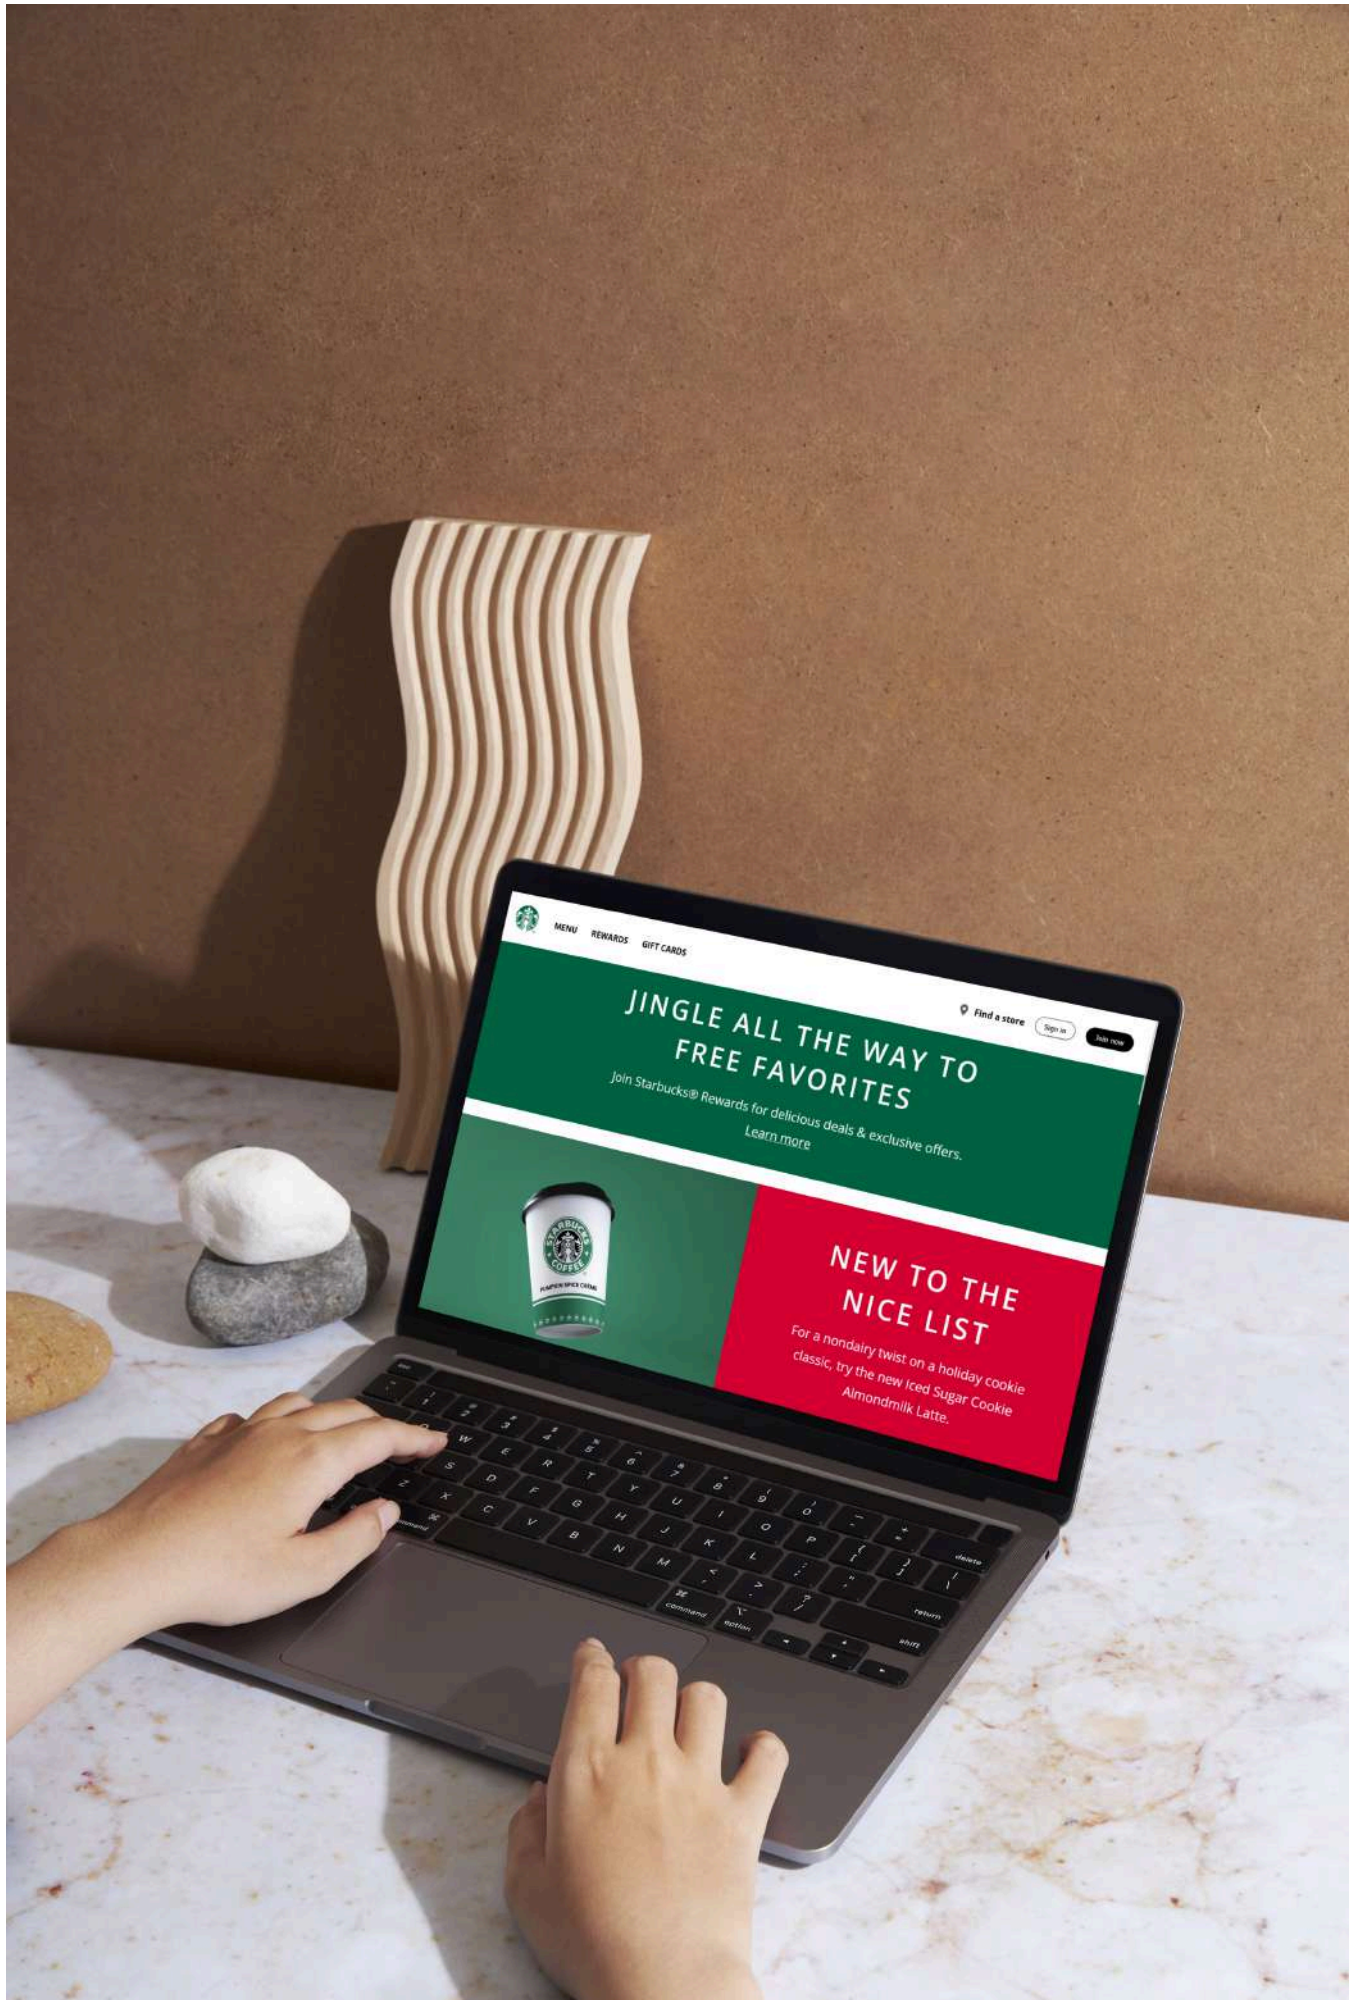

-  Hero section with call-to-action
 -  Fully responsive layout
 -  Stylish design inspired by the official Starbucks brand
 -  Smooth scroll and animations with JavaScript
 -  Toggleable mobile navigation menu
-

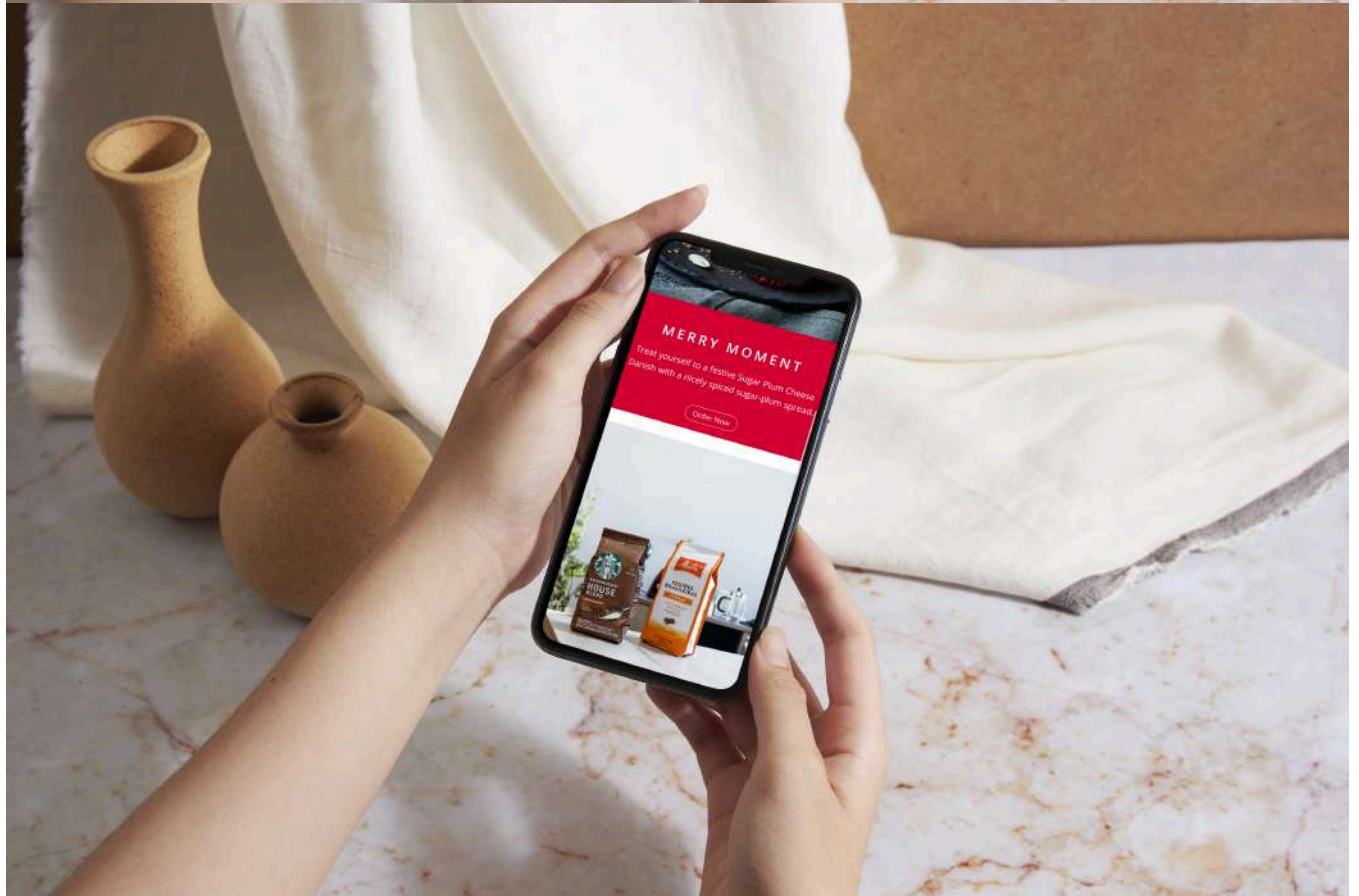

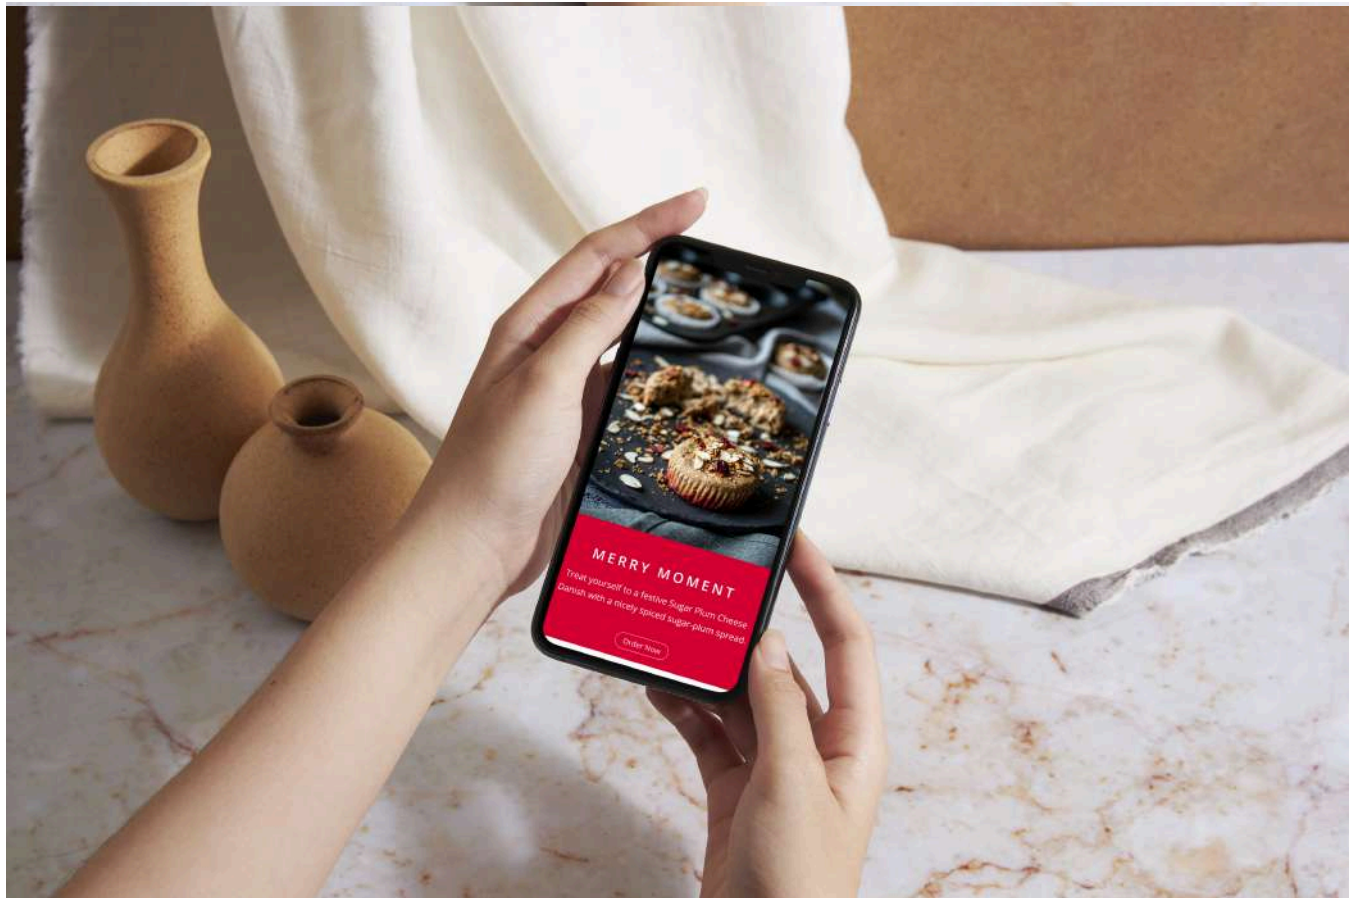

Demo

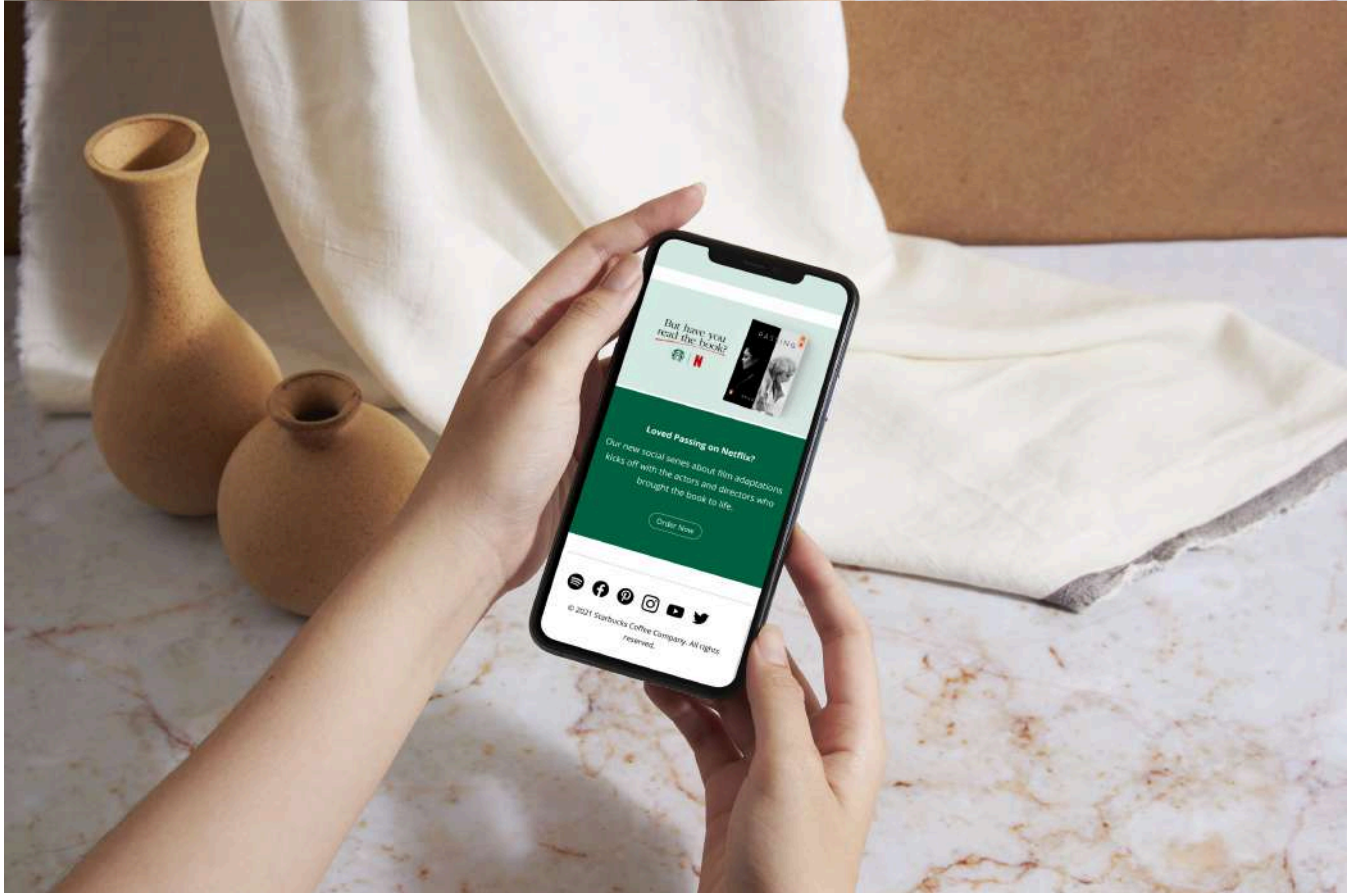

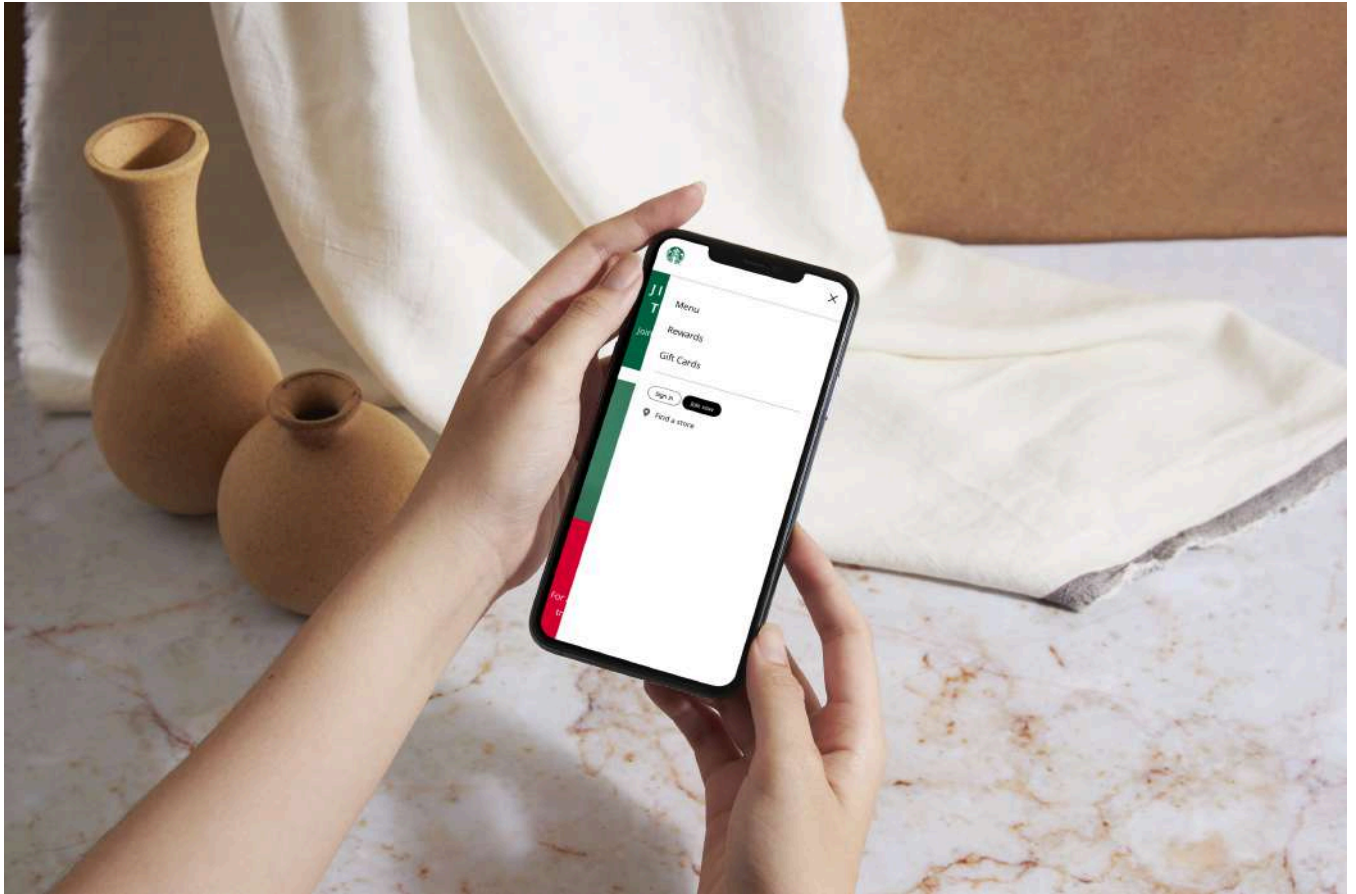

Live demo of this project is available here:

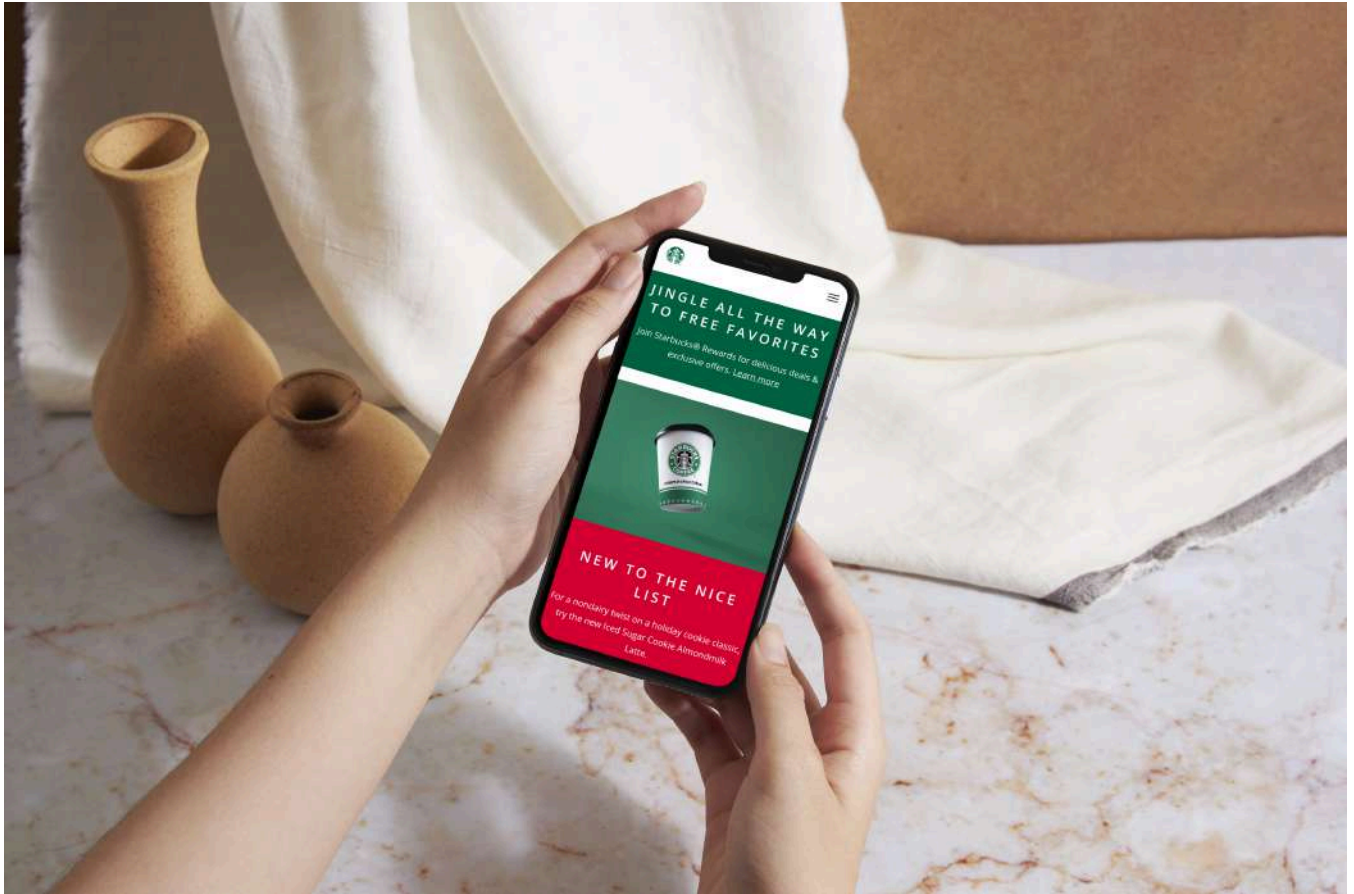

[Live Demo](#)

Built With

- **HTML5** — semantic structure
- **CSS3** — custom styling with Flexbox & media queries
- **JavaScript (Vanilla)** — for interactivity like mobile menu toggle

How It Works

📁 starbucks-landing-page/

- |— new.html
- |— new.css
- |— new.js
- |— README.md
- └─ pics/
 - |— logo.svg
 - |— box-d.jpg
 - └─ marker.svg

JS Interactivity Example

```
menuButton.addEventListener('click', () => {  
  mobileMenu.classList.toggle('hidden');  
  menuButton.classList.toggle('open');  
  document.body.classList.toggle('no-scroll');  
});
```
