EDUCATION

2017-2018

Kamalolmolk Art School

After graduation, however, I changed my ideas about my life ahead of me, and for that I decided to study art at **Kamalolmolk Art School** to spend my final year of pre-university.

2015-2017

Payam Technical Conservatory

Prior to my becoming enthusiastic about filmmaking, I had attended a construction program at **Payam Vocational Training School in Tehran**, Iran and was among **top students** there.

WORK EXPERIENCE

2019 - Present

Freelance Film Editing

Afterwards, I entered the world of editing, where I worked as a freelancer conducting projects for short films and video commercials. The success in finishing these projects was thanks to a previous experience I had when I edited works by other practitioners at the Society.

2016-2019

Camera Assistant - Film taking projects

It was through Iranian Youth Cinema Society that I could enter backstage for making short films and music videos. There, I worked as the assistant cameraman on projects and experienced working with such celebrities as **Shahab Hosseini** gaining valuable understanding of the niche.

WORKSHOPS

2019-2020

Invers School of Art & Design

I also experimented with other things including attending a preliminary Adobe After Effects graduating with a certificate bearing a high score of 92 out of 100.

2016-2017

Iranian Youth Cinema Society

I should add that I graduated from the Society with a high score of 18 out of 20 (the link is attached). https://iycs.ir/
