

Michael Subramoney

Profile

I am a hard working individual who thrives in pressured business environments. I have been in business for over 10 years and have a vast amount of knowledge and experience in 4 different business disciplines i.e. Information Technology, Performance Management Services, and Water & Electricity.

I have operated in both the private and public sector and have enjoyed the challenges faced and overcome.

I am creative & dynamic and have designed built and configured systems of a multidisciplinary nature.

I hold patent to an alternate water & electricity system

Employment History

IT Manager, Umnotho Business Consulting, Durban
June 2009- July 2011

- Built and implemented a system for troubleshooting technology issues.
- Worked to constantly improve information technology systems and infrastructure.
- Created business requirements and technical and quality assurance specifications.
- Managed all documentation and drafted weekly project communication reports, which were presented at meetings.
- Interacted with teams and provided guidance on projects.
- Increased Team productivity and monitored procedures and documentation for further productivity.
- Planned and developed written policies and procedures for computer operations.
- Managed the rollout of new tools and technology.
- Researched the most advanced technology solutions and implemented them where possible.
