Futura родилась в одно время с целым рядом немецких гротесков в конце 1920-х годов. Эти шрифты полностью отражали прогрессивный, модернистский дух своего времени. В какой-то момент, преодолев первоначальное сопротивление, момент, преодолев первоначальное сопротивление, Futura была выбрана для обслуживания нацистской пропаганды. Поскольку она продолжала пользоваться большой популярностью у американских типографий, во время войны шрифт был запрещен в США.

### 72 jours : histoire de la Commune de Paris

Le livre raconte l'histoire de la Commune de Paris en mettant l'accent sur le graphisme et les éléments contemporains. Le texte est tiré d'articles et de livres existants. Le matériel principal est tiré du site web « esperanto ». Le texte n'a été que légèrement modifié, l'accent ayant été mis sur la partie visuelle. Ce livre intéressera les personnes intéressées par l'histoire : les étudiants et les écoliers qui étudient la Commune de Paris, ainsi que les amateurs de livres de qualité avec une composante visuelle. Le livre est conçu pour rendre un sujet complexe accessible par le biais d'éléments visuels, combinant un contenu éducatif et artistique.
