

Translation Portfolio Examples

Translation of Ethereum Layer 2 Blog from English to Amharic

I translated a 1,000-word article about Ethereum Layer 2 scaling solutions into Amharic. The blog was written for an Ethiopian crypto community. I used accurate terminology for words like 'staking,' 'gas fees,' and 'rollups' while making sure the translation was easy to understand. Delivered on time with a clear, formatted Word document.

Amharic to English Translation of Formal Business Letter

A client needed help translating a formal business letter from Amharic to English. I delivered a professional, grammatically correct version while maintaining the original tone. This was used for submitting a proposal to a foreign investor. I ensured clarity, correctness, and confidentiality.

Subtitle Translation: Bitcoin for Beginners (English to Amharic)

I translated and added Amharic subtitles to a 5-minute educational YouTube video titled "What is Bitcoin?". I used Subtitle Edit to sync the timing and ensured all crypto terms were localized properly for an Ethiopian audience. Delivered in both .srt format and with screenshots for preview.
