- ~Slide presentation
- ~ Share content on social network.
- ~ provide community education.
- ~ generate ideas for development of project.
- ~ grow Community members
- ~ Attract members and investors.
- ~ Run telegram bots and am familiar with many AMA channels.

WORK EXPERIENCE

LBANK COMPANY
SAKAI VAULT CRYPTO COMPANY
SPORES LAUNCHPAD
BYTE VENTURES MAKERTING COMPANY

Amelia case study

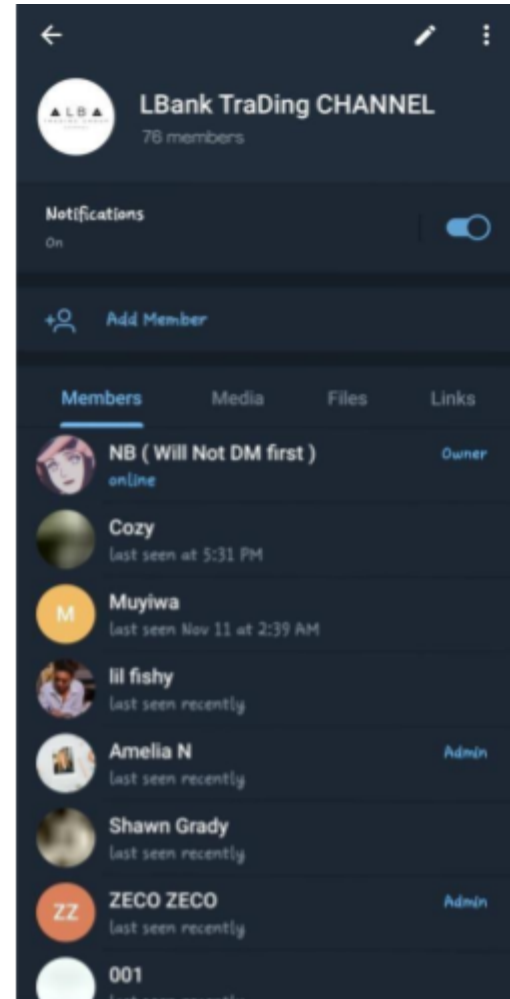

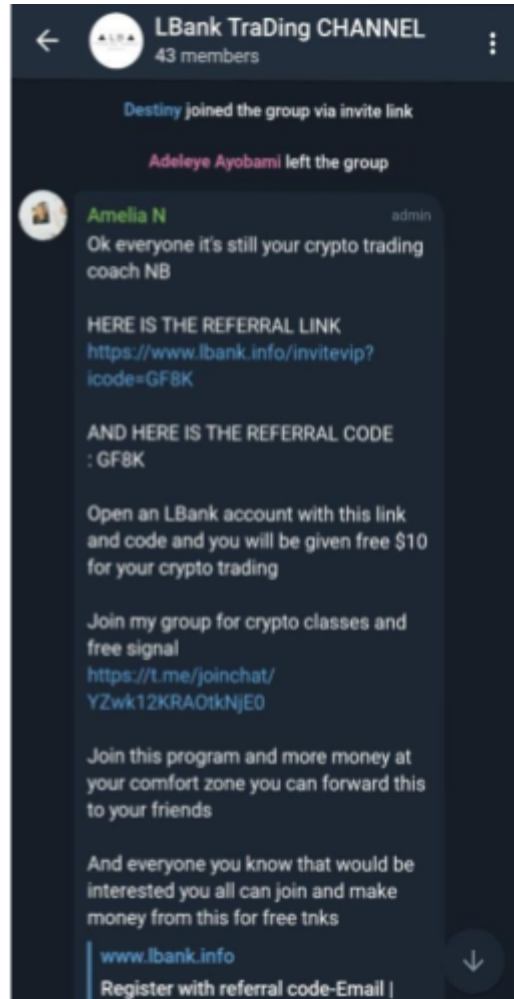

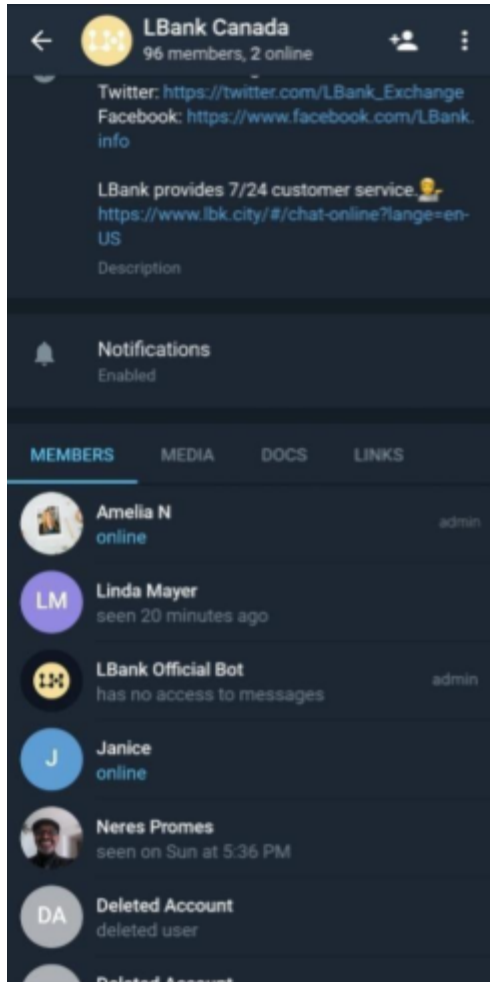

Full name Amelia Nadine Bashor

Moderated LBank canadian community group

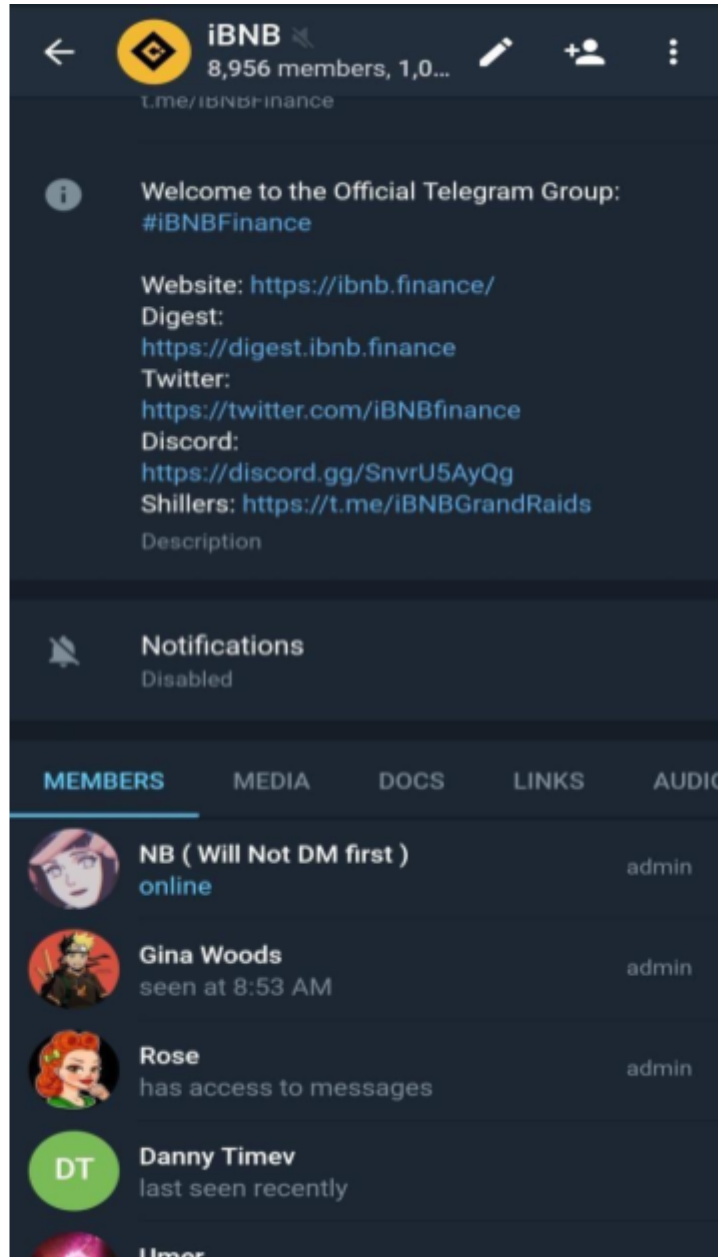

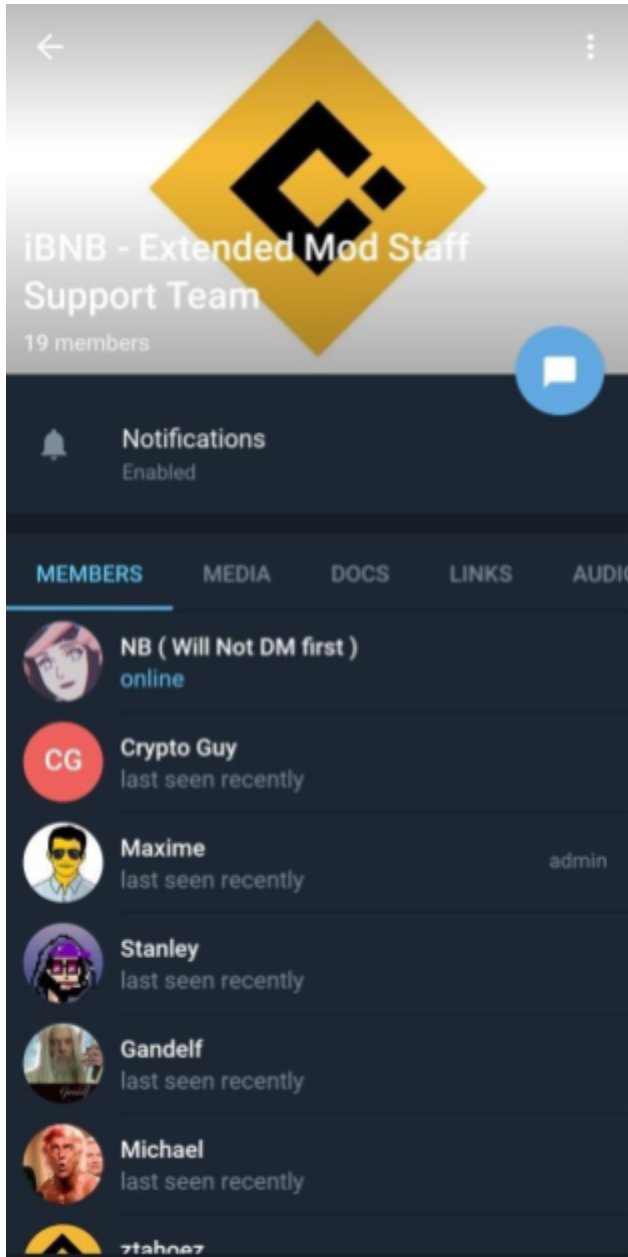

From July to September

The picture above is a mix up of few banners I have made for projects am working for

After the closed their community group program due to their management reason I was offered to work for their affiliate program of which am starting currently and it's going well

Recently working for iBNB am one of their moderators I create banners and content for announcements and help in marketing, and other plans which will help grow the project to peak, I have a list ambassadors and me and my team of one help market and grow projects.

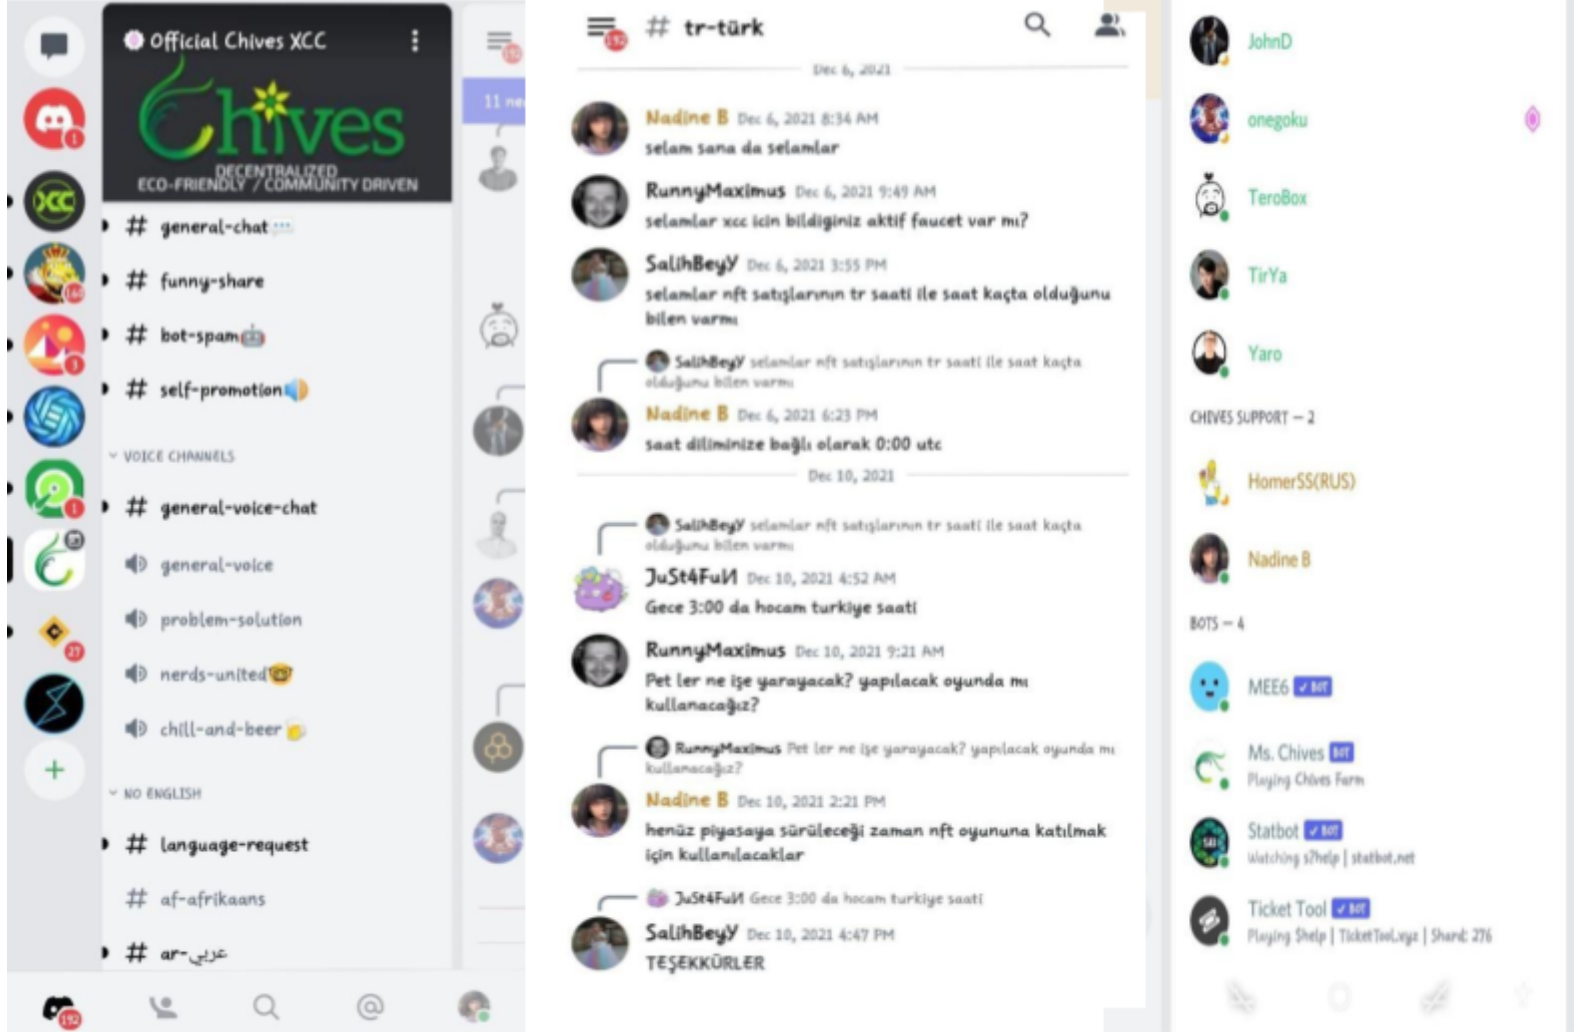

For confirmation pictures

Would have added a few more company I have helped their project but it was a part time work so it doesn't really count and I would have loved to post pictures were I share ideas with the iBNB mod staff support team but that is against our rules in the group so to help safe guard the strategy, would do the same for project too I hope you are satisfied with what I had to offer but all the skills listed on my resume I can offer

I work with honesty and love for crypto projects Thanks.

New projects am working for

Started working for chives coin. They are still under chia but soon they stand on their own

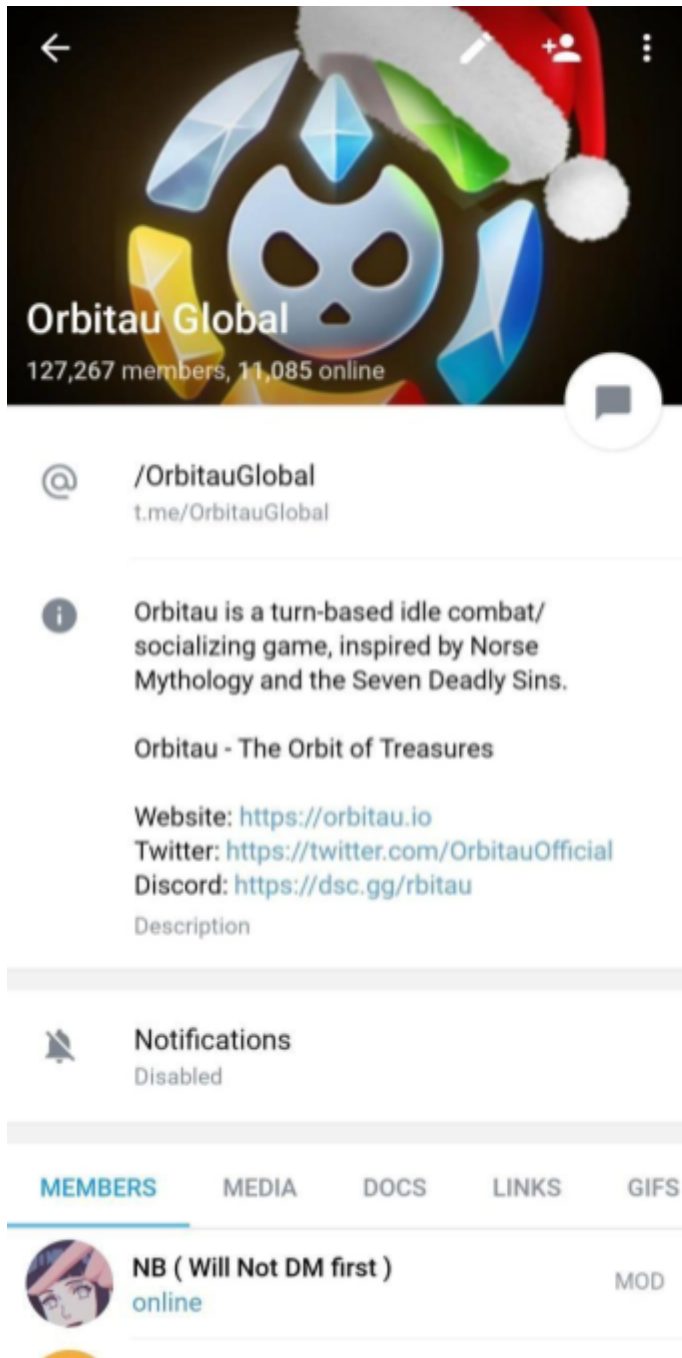

You can see I even use translators to help in other languages

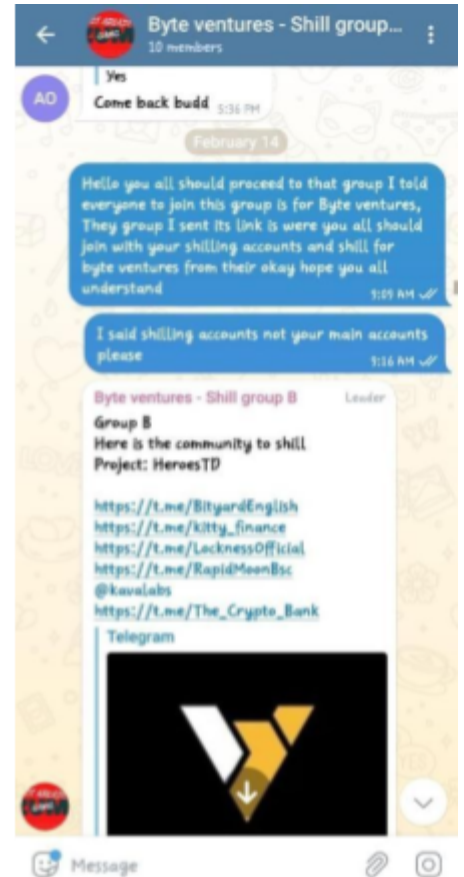

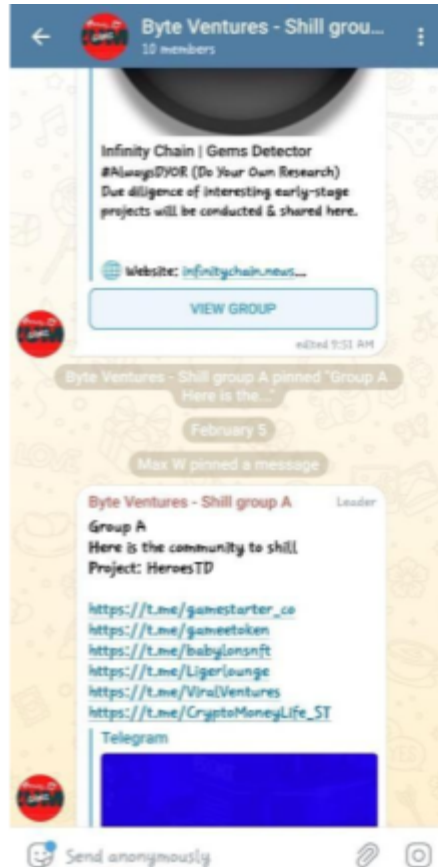

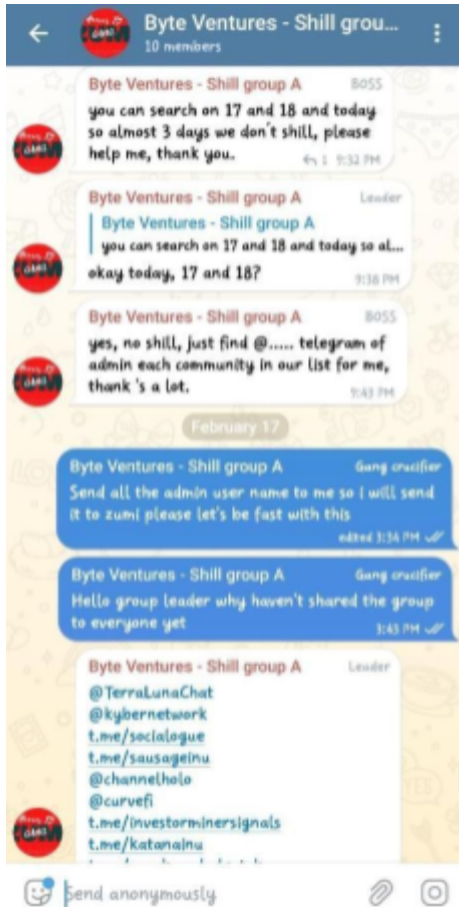

Note that I don't. Post projects that I worked for who due to one reason or the other failed most times due to the team was not transparent enough .

All these experiences I have in my head and when I see a project making those mistakes I tend to correct them in time. all these are the advantages of employing me to work as a moderator or manager for you

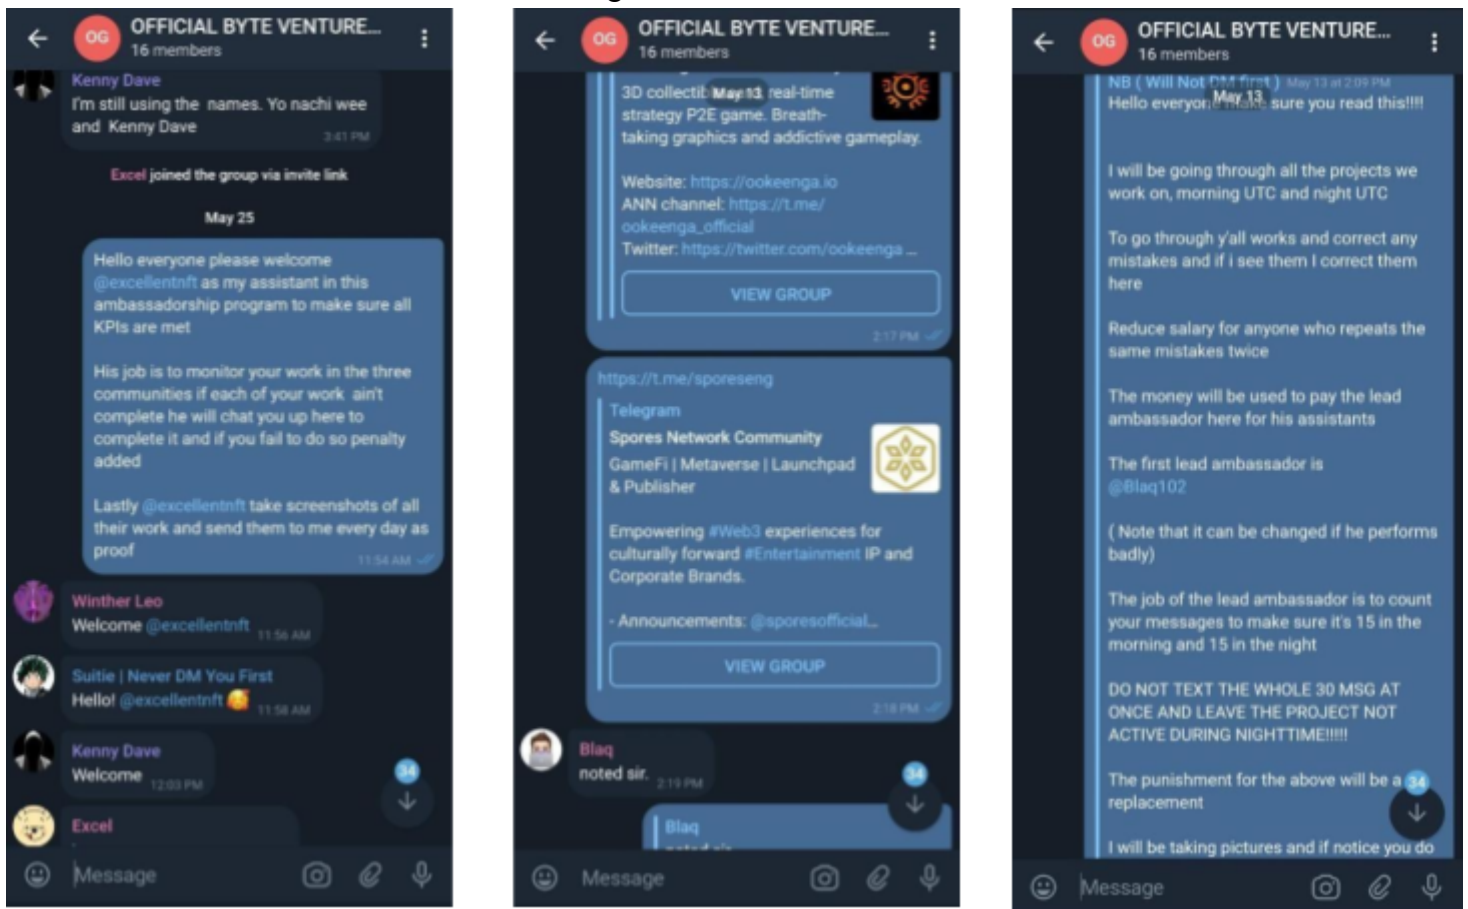

Currently working as a mod and assistant manager/Cm (community moderator) recruiter for orb ua project one of the outstanding projects in p2E crypto space space. Thank you

Due to some reasons my management stopped working with Orbital

Worked as Heroes TD head of shilling and ambassadors started and ended our contract with

them and three other play to earn games

Now the ambassador's head managing for spores launch pad(SPO), ookeenga (OKG) and Sun Dao ambassadorship program

Assigned Community Managers to many projects so far my knowledge of blockchain, Defi is vast

Samples of CMs Assigned

Gina for Ookeenga

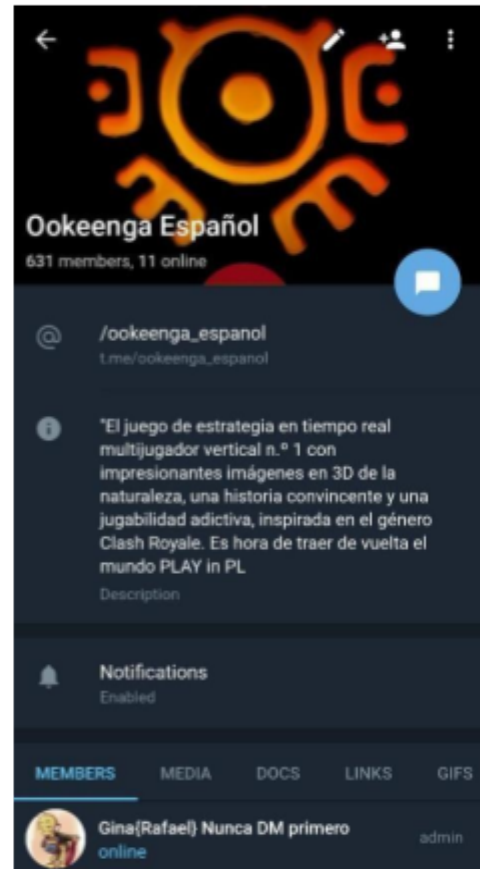

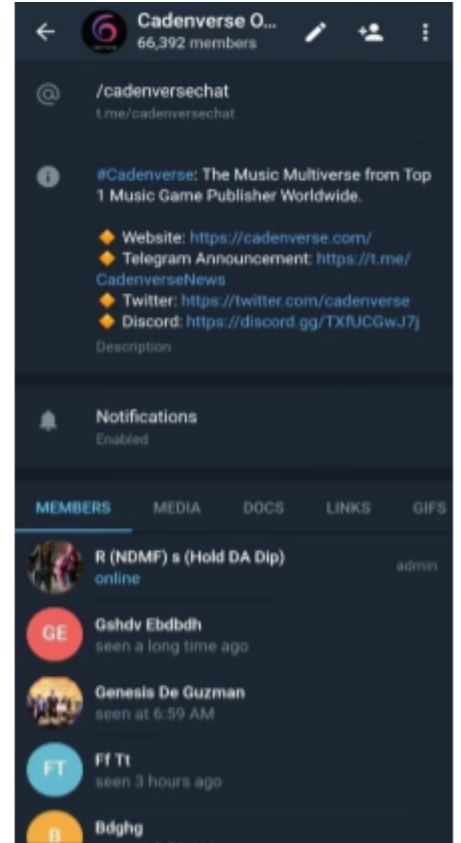

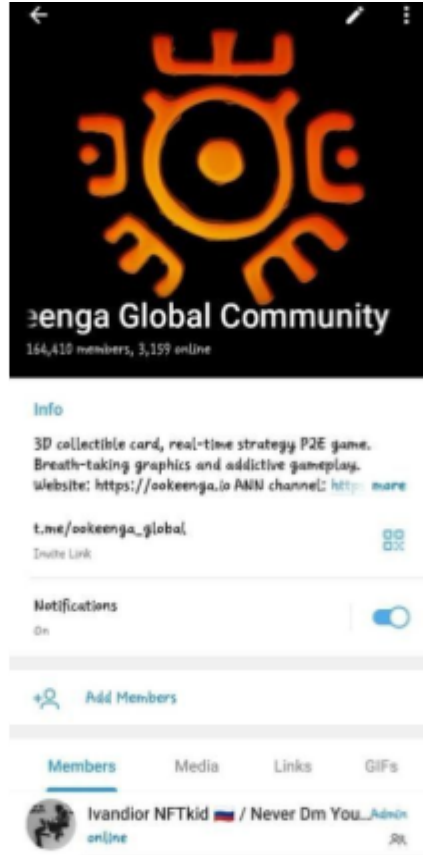

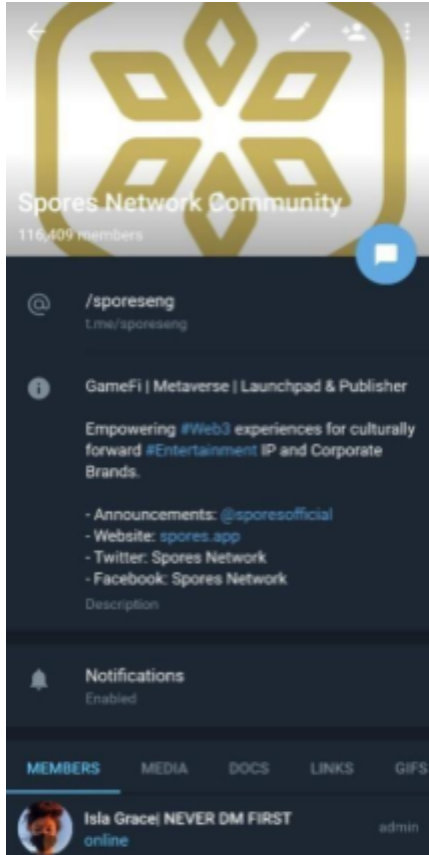

Ivandior for Ookeenga

Sussana Spartan for Ookeenga

Isla Grace for spores

Renae for Cadenverse

And so much more here are screenshots below

Can keep posting more screenshot but I will stop here if you need more you can ask me in my Dm

More updates to come
